Dear Mr. Czumak:

In response to the comment that test data contained in the test report pages can not be held confidential, please ignore the notation of “**CONFIDENTIALITY AND PROPRIETARY**” at the bottom of the pages of the test report. However, please maintain the pages marked as CONFIDENTIAL in the “Detailed Technical Description” section and the “Schematic” diagram in the non-public file. This Confidentiality is necessary to protect proprietary information contained within these sections of the application for Certification.

Thank you for your help.

Sincerely,

Donald J. Hume
