

## TRANSMITTER MODULAR APPROVAL ATTESTATION

January 24, 2006

Federal Communications Commission

Re: Application Modular Approval Certification for FCC ID: E2KWM3945ABG

Gentlemen:

The following attestation addresses the eight requirements to support modular approval as required by the FCC Public Notice DA00-1407 "Part 15 Unlicensed Modular Transmitter Approval"

| 8 | The modular transmitter meets the MPE calculations of 47 CFR 1.1307(b)(1).                |
|---|---|
|   | of the transmitter that will operate outside of the scope of the regulations.             |
| 7 | The modular transmitter is manufactured so that the user cannot influence the operation   |
|   | ID" or "Contains TXFCCID".  |
|   | module. The exterior label will read as follows: "Contains Transmitter Module FCC         |
|   | computer manufacturer will be informed to display a label referring to the enclosed       |
| 6 | The modular transmitter will be labeled with its own FCC ID. Also, the OEM host           |
|   | chassis of the host desktop computer.   |
| _ | extender card. The PCI extender card allows the transmitter to be placed outside of the   |
| 5 | The modular transmitter was tested outside of a host desktop computer using a PCI         |
|   | internal in the OEM host equipment and inaccessible to the user.                          |
|   | soldered to the antenna (depending on OEM configuration). Also the antenna will be        |
|   | 15.204(c) of the FCC rules. It has a UFL type of connector at the transmitter end and is  |
| 4 | The modular transmitter has an antenna that complies with section 15.203 and              |
| 3 | The modular transmitter has its own power supply regulator.                               |
| _ | modules are buffered through the radio circuitry.   |
| 2 | The modular transmitter has buffered modulation/data inputs. All inputs to the            |
|   | provided by the device into which it is installed in order to comply with Part 15 limits. |
| 1 | The modular transmitter has its own RF shielding and does not rely upon the shielding     |
