**Evaluation of Raymarine 2kW Radome Radar Scanner Unit**  
**FCC id: PJ5-AD2D-8P**

I have assessed the above referenced submission for the Raymarine Radar Scanner Unit and found it to be compliant.

The following were noted and resolved during the evaluation.

1: Attestation Letter

The applicant was requested to provide an attestation letter with an original signature confirming the accuracy of the test results and the Part 80 clauses with which the product is compliant.

2. Emission Designator

A complete emission designator was not supplied in the original submission. This was pointed out to the applicant and a revised emission designator provided.

Yours sincerely
