主旨: 回信: TCB Review Questions for (A05-0204c Behavio WirelessReceiver-E5XRX8193URF, 931126L02)

Dear Steve

Please see the reply as below:

Question #1: Test setup photos. It seems the EUT used in conduction and Radiated test are different in color! Please explain.

Answer: The Engineer' s sample has different appearance, but the internal is the same.

Question #2: Occupied Bandwidth plots. Missing up edge plots, data shown low edge plot only.

Answer: We added the up edge plots in Occupied Bandwidth.

Question #3: Users manual p2. The RFX statement is not specific to the user. Please revise.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance.

Answer: We change the wrong statement and re-upload the manual to ftp.

Please check.

PS. Hope receives the grant for E5XMS8193URF and E5XRX8193URF tomorrow.

Thanks for your assistance!

Best Regards

Wendy Liao
