

Federal Communications Commission
7345 Oakland Mills Road
Columbia MD 21046

Attention: Application Examiner / Review Engineer
Subject: Request for a Class II Permissive Change
Reference: FCCID: QOQWF121

To The Commission:

The intent of this application by Silicon Labs is to request a Class II Permissive Change to the WiFi Module having FCC ID QOQWF121. This module will be integrated into a GPS tracking unit (Model LC-800) manufactured by BI Incorporated.

The module was previously certified with a mobile classification. We are looking to add a specific design implementation for BI Incorporated which will use the module in a portable application in a low duty cycle fashion. We are therefore submitting a low duty cycle RF exposure analysis which details how this particular configuration meets the exemption criteria from KDB44498.

The following files are electronically submitted as attachments:

- Cover Letter
- RF Exposure Analysis.
- External Photos of Host
- Internal Photos of Module
- ID Label and Location Info
- Host User Manual

Sincerely,

Name: Bryan C. Taylor
