Polaroid

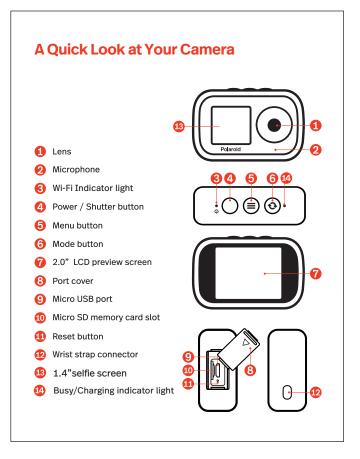

Polaroid iD922 Streaming Action Camera

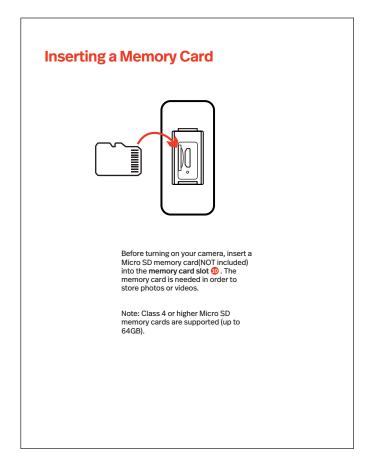

User Manual

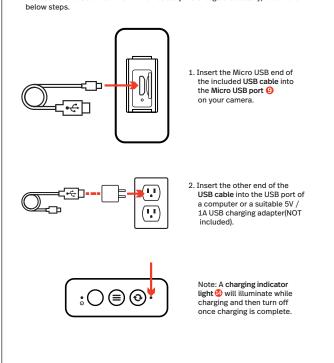

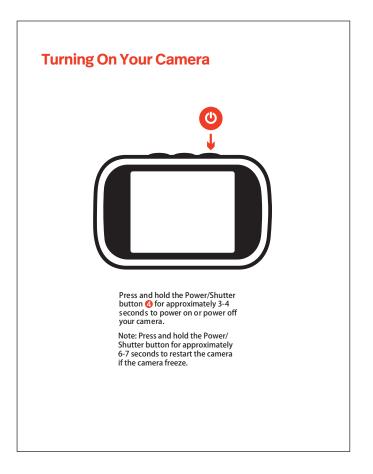

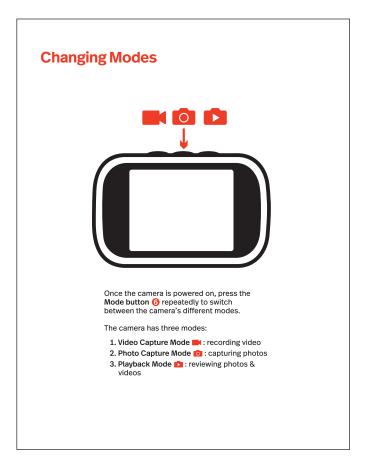

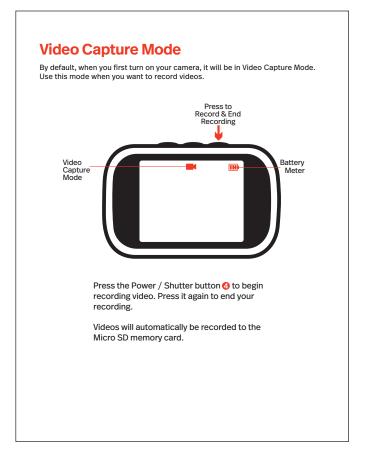

Charging Your Camera

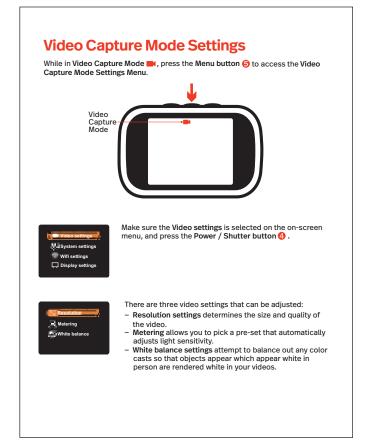

Your camera has a built-in lithium-ion battery. To charge the battery, follow the below steps.

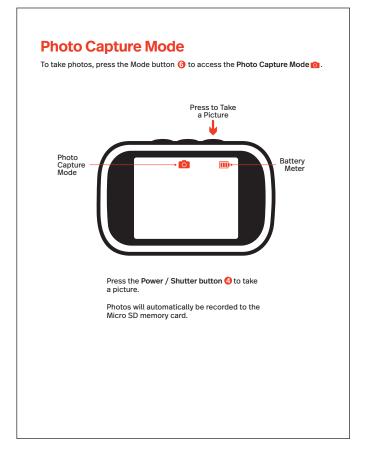

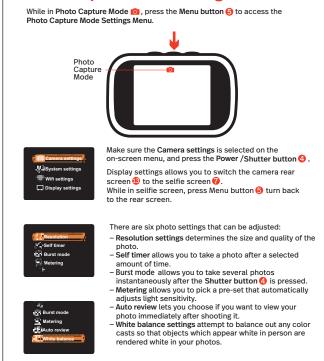

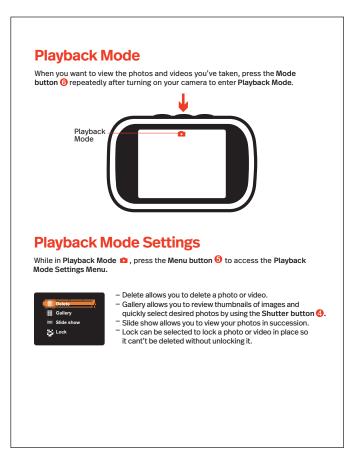

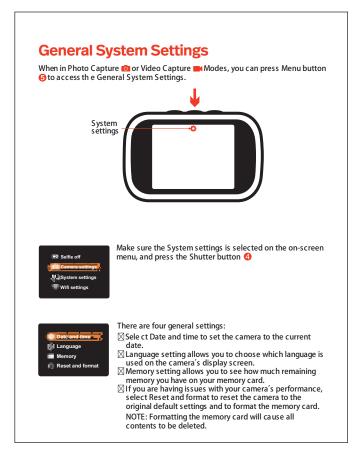

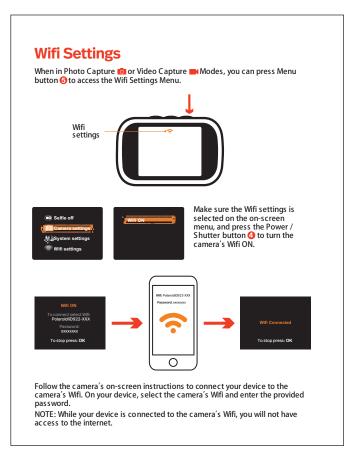

Photo Capture Mode Settings

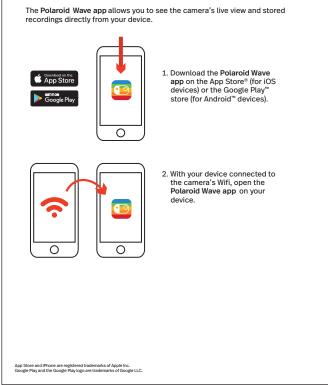

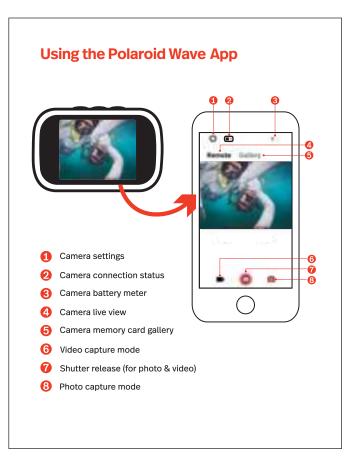

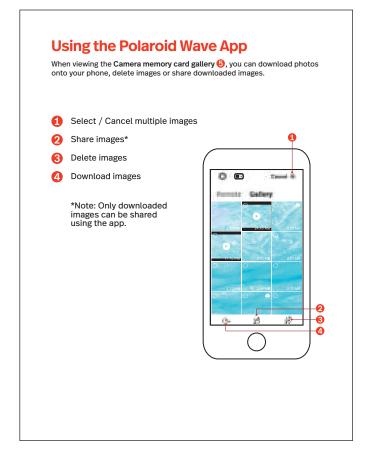

Connect to the Polaroid Wave App

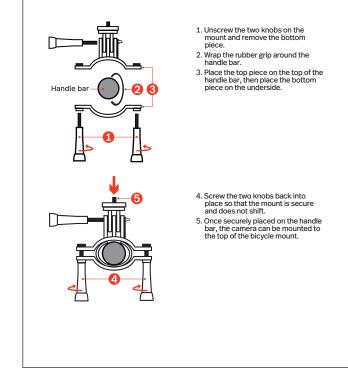

Using the Bicycle Mount

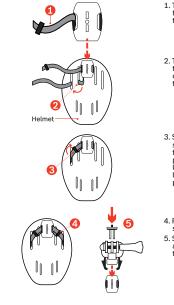

The bicycle mount can be used on bicycle handle bars or other similarly sized poles.

Using the Helmet Mount

The helmet mount can be used on a standard bicycle helmet by securing with the included helmet mount straps and adhesive pads on the underside of the mount.

Optional: Remove the protective seal on the adhesive strip and place on your bike helmet so that it sticks in place.

- 1. Take one of the large straps and thread it down through the slot on the helmet mount base.
- 2. Take the end of that strap and thread it through one of the ports on a bicycle helmet and then out through another port.
- 3. Slide the end of the strap through the strap's clip and adjust until the strap feels properly secure and in place, then press the clip until it clicks into place. Using the adhesive strips, fasten the loose ends of the large strap to other ports on the bicycle helmet.
- 4. Repeat steps 1-3 with the other strap.
- Slide the fastener into the base and attached the camera to the top of the helmet mount.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device compiles with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause underind operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Support

One Year Warranty

This warranty covers the original consumer purchaser only and is not transferable. This warranty covers products that fail to function properly UNDER NORMAL USAGE, due to defects in material or workmanship. Your product will be repaired or replaced at no charge for parts or labor for a period of one year.

What is not covered by warranty Damage or malfunctions not resulting from defects in material or workmanship and damages or malfunctions from other than normal use, including but limited to, repair by unauthorized parties, tampering, modification or accident.

To obtain warranty service and troubleshooting information:

Call 877-408-0033 or visit our website at www.polaroid.com.

To receive warrant service along with the name and address of an authorized product service center, the original consumer purchaser must contact us for problem determination and service procedures. Proof of purchase in the form of a bill of sale or receipted invoice, evidencing that the product is within the applicable warranty period[s). MUST be presented in order to obtain the requested service. It is your responsibility to properly package and send any defective products along with a dated copy of proof of purchase, a written explanation of the problem, and a valid return address to the authorized service center at your expense. Do not include any other items or accessories with the defective product. Any product received by the authorized service center that are not covered by warranty will be returned unrepaired.

E-Waste Notification

P.R.P.Holdings, LLC, its licensees, affiliates, and Sakar International, inc. fully supports all electronic waste initiatives. As responsible stewards of the environment, and to avoid violating established laws, you should properly dispose of this product in compliance with all applicable regulations, directives or other governances in the area where you reside. Please check with local authorities or the retailer where you purchased this product to determine a location where you can appropriately dispose of the product.

You may also go to www.polaroid.com and reference Social Responsibility https://polaroid.com/pages/social-responsibility to learn more about the specific laws in your area and to locate a collection facility near your home.

If your electronic device has internal memory on which personal or other confidential data may be stored, you may want to perform a data sanilization process before you dispose of your device to assure another party cannot access your personal data. Data sanilization varies by the type of product and its software, and you may want to research the best sanitization process for your device before disposed. You may also check with your local recycling facility to determine their data sanitization procedures during the recycling process.
