

Antenna Specification PGP9920, RP-600 PG Plus

Diversity antenna with 2 inverted F antennas made of two parts: printed part and through hole wire. The RP-600 PG+ Antenna Diversity solution helps to resolve devices signal strength issues related to range or interference in indoor environment.

Frequency Range (MHz)	915	
VSWR	<3:1	
Average Efficiency	>35%	
Peak Gain	+4dBi	
Average Gain	TBD	
Power Handling	3 Watt CW	
Feed Point Impedance	50 Ohm	
Polarization	Linear	
Size	16.7X60 mm	
Weight		
Mounting	Mounting with plated through holes	
Operating Temperature	-20 to + 65°C	
Storage Temperature	-40 to +85°C
