

FCI WARNING:

Note: The equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause or is suspected to cause such interference, you should discontinue its use immediately until it can be determined by your dealer or service representative that the equipment complies with FCC rules and, on this site, is acceptable to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.

©2008 The equipment has also studied as per FCC
Classified from that which the receiver is connected.
Consider the dealer or an experienced radio-TV technician for help.
FCC warning for Portable device
The device has been evaluated to meet general RF exposure guidelines for portable devices under normal operating conditions. No restrictions have been placed upon exposure conditions without restriction.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference,
(2) The device must accept any interference received, including interference that may cause undesired operation.

FCC ID: A6KXWV17GDC
