Federal Communications Commission  
Authorization and Evaluation Division  
1435 Oakland Mills Road  
Columbia, MD 21046

Date: November 25, 2024

SUBJECT: FCC C2PC Application for (FCC ID: **A3LRF4435D-71A**)

To Whom it may concern:

This is to request a Class II permissive change to our product (FCC ID: A3LRF4435D-71A), This is to request for a reassessment of the originally certified equipment because additional operation mode have been made which affect the RF characteristics of the previously certified product. For this Class II permissive change, it enabled additional Single and Multi-carrier operational via software without any hardware change. And the maximum output power rating of the original authorization does not change.

- Add LTE, NR Single and Multi-carrier configuration on B/n71
- Add LTE, NR Single and Multi-carrier configuration on B/n85

This authorization is valid until further written notice from the applicant.

Please contact me if you have any questions or need future information regarding this application.

Regards,

Jongin Kim / Principal Engineer
