

Solder Board-Component View 11	 A photograph of a green printed circuit board (PCB) component, labeled 'V1C-1006-W-L3-34-V3_0_20200825', positioned horizontally against a blue background. The component is marked with numerous small, light-colored rectangular components. A black ruler with white markings is placed below the component, showing a scale from 0 to 100 mm. The component's length is approximately 100 mm.
Solder Board-Component View 12	 A photograph of a green printed circuit board (PCB) component, labeled 'V1C-1006-W-L3-34-V3_0_20200825', positioned horizontally against a blue background. The component is marked with numerous small, light-colored rectangular components. A black ruler with white markings is placed below the component, showing a scale from 0 to 100 mm. The component's length is approximately 100 mm.

Solder Board-Component View 13	 A photograph of a small green printed circuit board (PCB) component, labeled 'V1C-1000', 'REV1.0', and '18LED'. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters (mm) from 0 to 100. The component is oriented vertically, with its top edge facing the right side of the frame.
Solder Board-Component View 14	 A photograph of a small green printed circuit board (PCB) component, labeled 'LED1', 'LED2', and '18LED'. The component is positioned on a blue textured surface. A black ruler with white markings is placed below the component, showing measurements in millimeters (mm) from 0 to 100. The component is oriented vertically, with its top edge facing the right side of the frame.
