

Original PN is CYBLE-416045-02,

now add a new PN CYBLE-416070-02 to the test report and certificates

CYBLE-416070-02 and CYBLE-416045-02 have the same PCB design, peripheral components, same RF performance.

The difference is:

PN	Silicon	Difference
CYBLE-416045-02	CY8C6347BZI-BLD53	The two chips' die is same.
CYBLE-416070-02	CYB06447BZI-BLD53	The only difference is that add security feature into CYB06447BZI-BLD53, it does not affect RF performance
