SUBJECT: Class II Permissive Change for **FCC ID: P27SZESW01**

The product, ZigBee Energy Switch, has been granted by FCC dated 08/27/2013,
FCC ID: P27SZESW01.

Now we, Sercomm Corporation, would like to modify the authorized equipment for below changes:

- Motherboard change Layout
- Add addition CH25 test data, since original high channel 26, has very low output power due to out of band emission limitation, we want to show permitted output power on next channel 25.

Except for the change above, no other modification is performed. Also, the change does not have any impact on the approved radio parameter such power, frequency, range modulation etc.

We would like to certify the additional of certified FCC ID: P27SZESW01 as a Class II Permissive Change in this device.
