

SIMCom Wireless Solutions Limited

No.633 Jinzhong Road, Shanghai, China

Test Data Reuse Letter

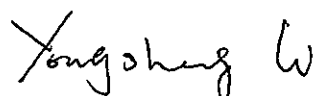

This application is intended to reuse previous test data (from FCC ID: 2AJYU-8EC0001, certified on 11/11/2021 of initial application), due to the fact that the two models of products are hardware-wise identical and only the following changes have been made:

SIM7022 (FCC ID: 2AJYU-8EC0001), SIM7028 (FCC ID: 2AJYU-8EC0002), all use chipset, share the same chipset baseline, same software and hardware design, support same bands. Here is only different model number.

So SIM7028 (FCC ID: 2AJYU-8EC0002) reused the test results of SIM7022 (FCC ID: 2AJYU-8EC0001).

Also, both the referenced application and this new application are all subject to the same FCC rule and there is no new rule update for related rules. Accordingly, we believe that the reuse data from previous certified filing is justifiable. Thank you for your attention and please feel free to contact us, if you should have any questions. Sincerely yours,

Yongsheng Li
