

3-in-1 MagCharge Combo Pack

Magnetic Wireless Foldable Charger Stand

The 3-in-1 Mag Charge Stand is a versatile, multifunctional charging solution. This innovative stand features dedicated slots for your compatible smartphone, smartwatch, and earbuds, all within a foldable and portable design that offers ultimate convenience on the go. Made from high-quality, easy-to-clean materials, it promises both durability and a sleek appearance. It's compactly designed, making it perfect for travel. Also, PD Wall Charger & Type-C cable is included for your convenience.

In the box:

- 3-in-1 Mag Charger
- 3ft Type - C to Type - C cable
- ETL Approved PD Wall Charger

Earphones Charging pad

MAGNETIC WIRELESS FOLDABLE CHARGER STAND

This wireless charging solution features advanced control chips and is CE certified. It supports various fast charging protocols for compatibility with mainstream technologies. Constructed with aluminum alloy, it enhances charging efficiency and heat dissipation. The device integrates three independent chips to intelligently charge mobile phones, Bluetooth earphones, and Apple Watches simultaneously with a single cable, ensuring safety and avoiding interference.

Key features include N52 strong magnets for the mobile phone terminal, an upgraded magnetic suction coil for the Watch terminal, and broad compatibility for earphones. It offers efficient, safe, and fast charging up to 15W per channel, with built-in protections such as intelligent foreign object detection, voltage mutation detection, over-current protection, and overheating prevention. Its sleek, foldable design makes it versatile for home, office, and travel use, providing reliable charging whenever needed.

SPECIFICATIONS

- Input: 9V/12V 3A(MAX)
- Output 1: Phone 15W(MAX)
- Output 2: iWatch 2.5W(MAX)
- Output 3: Earbuds 3.5W(MAX)
- Dimension: 76.5*76.5*19.5mm
- Material: Aluminum Alloy+PC +ABS+PU
- Weight: N.W. about 112g
(Without power adapter+USB cable)

PRECAUTIONS

- Keep it out of the reach of children.
- It is prohibited to disassemble the product
- Non-specialized persons should not disassemble or repair this product.
- Pay special attention to the fact that this product needs to be used with QC2.0/QC3.0 and other formally certified chargers
- Do not attach ring buckles, items that increase the thickness of the phone, or metal objects to the back of the phone to avoid affecting wireless charging or the phone's charging efficiency
- Do not leave mobile phones, watches, or earphones on the charger for extended periods after they are fully charged
- Disconnect the charger's power supply after charging

FCC REQUIREMENT

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Product Standard Code:Q/AQL 003-2017

Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The FCC certification of this device refers to RF exposure testing performed in typical operating conditions, where a person is no closer than 20 centimeters from the device surface at all times, except for non-repetitive patterns with transient time intervals in the order of a second. Only in the stated conditions, the device is shown to fully comply with the FCC RF Exposure requirements of KDB 447498.
