

GRAVITY C5

Magnetic Wireless Charging Power Bank

Specification

Description Magnetic Wireless Charging Power Bank

Battery Capacity 5000mAh / 3.85V / 19.25Wh

Input Power USB-C: 5V=3A / 9V=2.2A / 12V=1.67A

Output Power Wireless: 5W / 7.5W / 10W / 15W

> (iPhone support 7.5W) USB-C: 5V=3A / 9V=2.2A / 12V=1.67A

Wireless + USB-C: 5V == 3A (15W max.)

Operating Temperture 0°C-45°C

105 x 66 x 8 7 mm

Weight 117 g

Warranty 1 year

roduct can only be used to charge smartphones / earbuds. Please to the user manual for instructions and more porduct information.

Product Introduction

Charging Introduction

simultaneously

* The light just turns on 8 seconds. The magnetic area can charge AirPods with a MagSafe charging case.

Place AirPods on the magnetic area

Protective Function

(4) Short-circuit protection

Over-heat protection

LFD Indicator Introduction

- · Battery Level Off Status indicator Power Level 75%~50% 50%~25% 25%~0% LED Indicator 0000 .000 ••••
 - · Power on · Power off Press power button once. The white light will turn on and show the battery Value, after 5 seconds turns off.
 - Press power button twice. The indicator turns off
 - · Wireless charging Instantly charge upon contact and activate wireless charging output.
 - . USB-C Charging (output)
 - The other white indicators will show the current battery value, the blue light turns off,
 - · Simultaneously Charging Wireless and USB-C
 - The other white indicators will show the current battery value, the blue light stays on. FOD(Foreign Object Detection)

Blue light flashes. Attention

- Do not expose to liquids
- Do not shake while charging
- (Unplug the device when fully charged () 1 year warranty
- Do not disassemble, puncture, drop, bend or modify
- Please scan the QR code on the packaging for the user manual

Keep away from children

Avoid extreme temperatures

For the fastest and safest charge, use an ADAM cable, your device's original cable or a certified cable (such as MFi)

FCC Warning:

This device complies with Part 18 of the FCC Rules. Refer to ECC Part 18 213(c) and KDB 784748 Anner A section A 5: (a) Max. Electric Field Emissions: 5.21V/m Max. Magnetic Field Emissions: 0.54V/m (b) The maintenance of the system is the responsibility of the manufacturer (c) To prevent interference, the product should be as far away from devices operating at the same frequency as possible

FCC ID: 2ABY9GRAVITY-C5

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of

- Reorient or relocate the receiving antenna.

the following measures:

- Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
