

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Radiation Emission Test
Setup (Below 30MHz)**

**Radiation Emission Test
Setup (30MHz to 1GHz)**

Radiation Emission Test Setup (1GHz to 18GHz)	 A photograph of a radiation emission test setup. A white, rectangular test item is placed on a white, stepped pedestal. The pedestal is positioned on a circular turntable. The entire setup is inside an anechoic chamber, with the walls covered in white, square-shaped absorbers. A red, fan-shaped antenna is visible on the right side of the chamber. The floor of the chamber is covered with a layer of dark, pointed absorbers.
Radiation Emission Test Setup (Above 18GHz)	 A photograph of a radiation emission test setup, similar to the one above. A white, rectangular test item is placed on a white, stepped pedestal. The pedestal is positioned on a circular turntable. The entire setup is inside an anechoic chamber, with the walls covered in white, square-shaped absorbers. A blue, flexible antenna is visible on the right side of the chamber. The floor of the chamber is covered with a layer of dark, pointed absorbers.
