Subject: 回信: RE: Two new FCC approval projects, FCC ID:Q87-USBBT100V2

Dear Steve,

FCC ID:Q87-USBBT100V2
Question #1: Users manual revised!
Question #2: Operational description revised!

If you have any further question, please contact us.
Thanks!

Best Regards,

Amanda Chu / 朱芳誼

主旨 RE: Two new FCC approval projects

-EMC-

Question #1: Users manual p 72; RF exposure statement does not include specific information.

FCC Radiation Exposure Statement:
This equipment End users must follow the [specific operation instructions](#) for satisfying RF exposure compliance.

Need to use more specific language to the user.

Question #2: Operational description; stated different power then measured. Please clarify.

Best regards,

[Steve Cheng](#)
