

Huawei Technologies Co., Ltd.

MRD-LX1N(FCC ID:QISMRD-LX1N) is a reference device based on MRD-LX1(FCC ID:QISMRD-LX1),the difference between them shows in the below table:

NFC for MRD-LX1N is added by hardware, no other changes on hardware and software.

Therefore the test plans confirmed as below

1. For SAR, spot check for the worst cases of the referenced test report FA8N3012 for ensuring that SAR measurement for both device are almost same, so the referenced SAR value can represent this application.
2. For EMC, RE and CE test for adding NFC function was performed, other data of MRD-LX1N is based on the model MRD-LX1 report number SUBH(Z-EMC)2018011024001-2.
3. For RF, NFC is full test. Other data for GSM/WCDMA/LTE refers to SYBH(Z-RF)20181011024001 of MRD-LX1 and BT/ BLE/2.4G WIFI refer to SYBH(Z-RF)2018011024001-2004/ SYBH(Z-RF)2018011024001-2003/ SYBH(Z-RF)2018011024001-2002 respectively.

	Model	MRD-LX1	MRD-LX1N
