# **User Manual**

Wireless Charger TX Model: QI02

This product is a fast wireless charger compaible with WPC Qi 1.2.4 BPP standard. It can support Apple 7.5W, Samsung 10W fast wireless charging and all Qi-enabled devices with 5W standard wireless charging.

#### Installation and use methods

1. Attach the wireless charger TX to the table with screws.

2. Place your phone on the designated position of the table that have attached the charger.

# Accessories list

Wireless Charging TX x 1 Anti-theft parts x 1 Screw x 3

# Specifications

DC-DC Module:

Input: 20~36V / 1A(MAX) Output: 9V - 2A Size: 50×30×17.7mm

### Wireless charger TX:

Input: 9V=2A Output: 5W / 7.5W / 10W Max Charge distance: 1. 0-4.5mm Between wireless charger

- - housing to Phone
    2. 8mm Between wireless charger TX Coil to RX Coil

# Charge area: 10×10mm Size: ø59.5mm×18mm

# Attention

- Don't expose to liquids. 2. Don't disassemble.
- Avoid dropping.
- 4. Avoid extreme temperatures.

#### FCC STATEMENT

- 1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference. (2) this device must accept any interference received, including interference that may cause undesired operation.
- 2. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- 3. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

# FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
