

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (Electronic Under Test) assembly. On the left is a white plastic housing with a central circular opening. To its right is a black printed circuit board (PCB) with various electronic components. A black ruler with white markings is placed vertically to the left of the components, showing measurements in millimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A photograph showing a close-up view of the solder board-component. The black PCB is populated with various electronic components, including resistors, capacitors, and integrated circuits. A black ruler with white markings is placed vertically to the left of the board, showing measurements in millimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph showing the solder side of a black PCB component. A central circular component is visible, with the label 'CR2430' printed on it. The component is surrounded by several circular solder pads. A black ruler with white markings is placed horizontally above the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	Bluetooth Antenna  A photograph showing the antenna side of the black PCB component. A red rectangular box highlights a specific area on the board, with a red line pointing to it from the label 'Bluetooth Antenna'. The board features various electronic components, including a central chip and several smaller components. The text 'ERS-40BBVB-AA_V1.1' is printed at the bottom of the board.
