FCC and IC for WIRELESS PRODUCTS

CAUTION:
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the radio. The user is responsible for ensuring that the equipment complies with the applicable regulatory requirements. The equipment must not be repaired or operating in conjunction with any other antenna or transceiver. This equipment has been tested and found to comply with the following limits for Class B digital devices. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment operates, and can radiate radio frequency energy that may interfere with other equipment that is receiving or transmitting. Proper shielding must be maintained to ensure that there is no harmful interference to a local particular installation. If this equipment does cause harmful interference, the user is encouraged to take the following steps to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into a circuit on a different outlet from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC ID: A402038B1T
This device complies with FCC radiation exposure limits for both for an uncontrolled environment and a also complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:
(1) this device must not cause harmful interference, and
(2) this device must accept any interference including interference that may cause undesired operation.

IC: B11446-02038B1T
Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain that is explicitly approved for use with this transmitter. Use of an antenna with a higher gain than the maximum type and gain that is approved may cause the equivalent isotropically radiated power (EIRP) to be more than that necessary for successful communication.

Conformément des réglementations d'Industrie Canada, ce radiotransmetteur ne peut fonctionner avec une antenne d'un gain supérieur au gain maximal (ou inférieur) approuvé pour fonctionner par l'Industrie Canada. L'usage d'une antenne de gain plus élevé que le gain maximal approuvé peut entraîner une puissance rayonnée équivalente (PRE) supérieure à celle nécessaire pour une communication réussie.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device must not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Il est certifié que cet appareil est conforme aux NRE exemptées de licence d'Industrie Canada.
L'exploitation est soumise aux deux conditions suivantes:
(1) l'appareil ne doit pas causer d'interférences;
(2) l'appareil doit accepter toute interférence y compris les interférences qui peuvent causer des perturbations au fonctionnement de l'appareil.
