NO.2

Add device-Network connection process

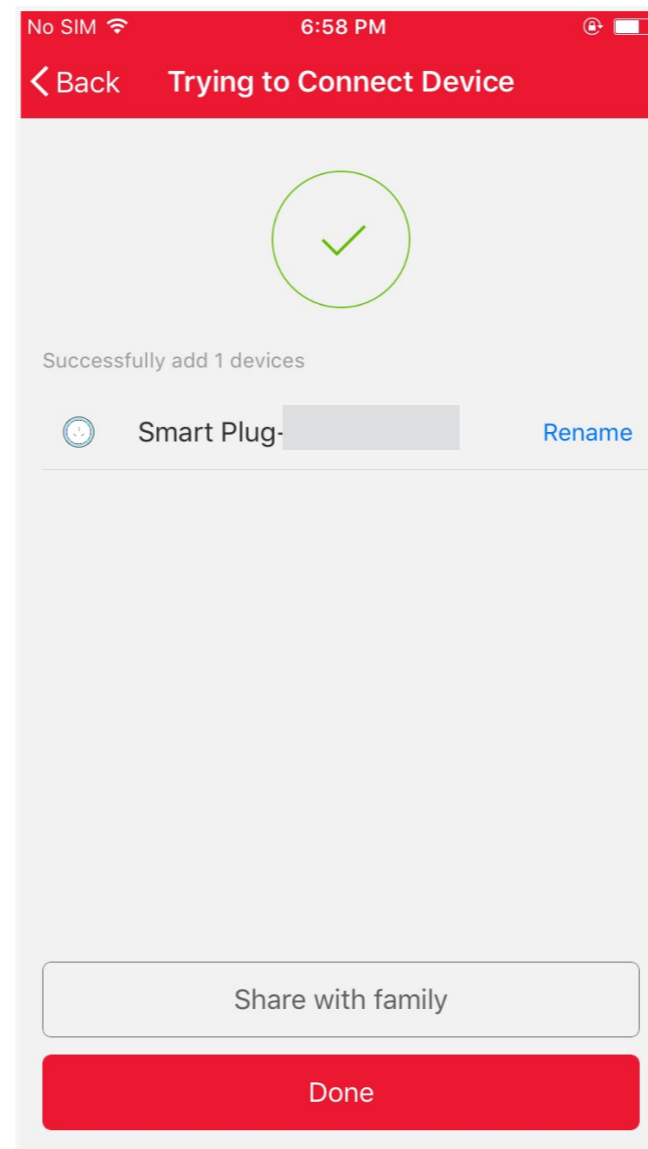

For AP mode, connect to the Wi-Fi hotspot named “SmartLife”, as shown in the picture
Notes: Some devices might have different hotspot names.

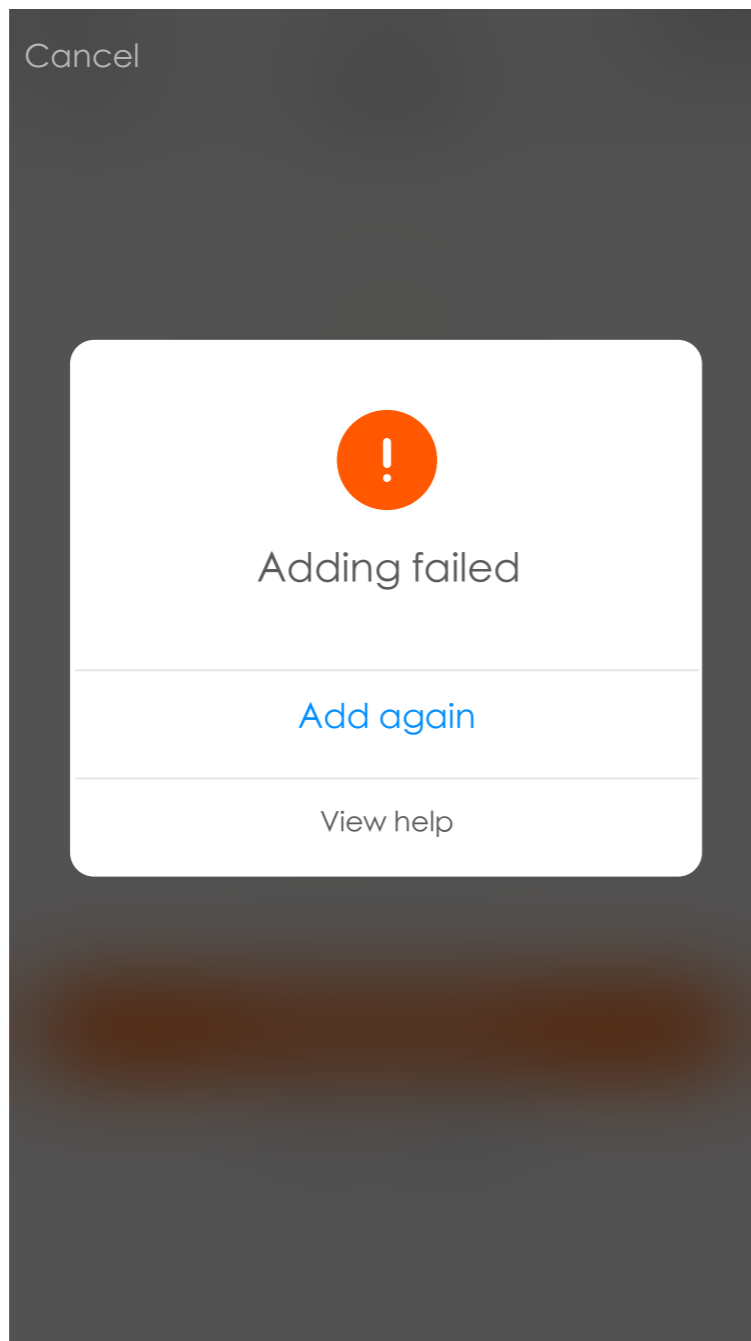

After connecting with the hotspot, back to the network connection page to enter network connection process. The App goes through as shown in the picture 1. Picture 2 shows the App page when the network connection is successful.

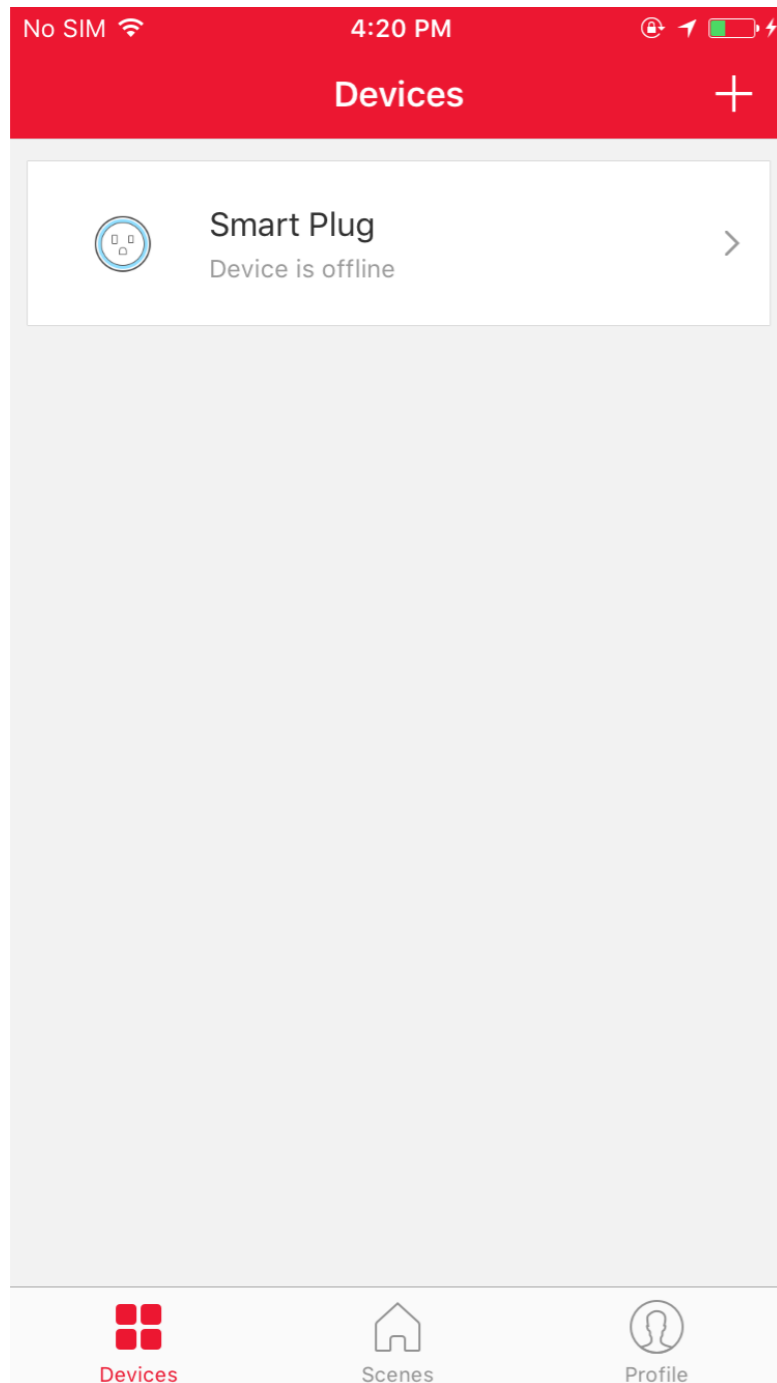

Picture 1

Picture 2

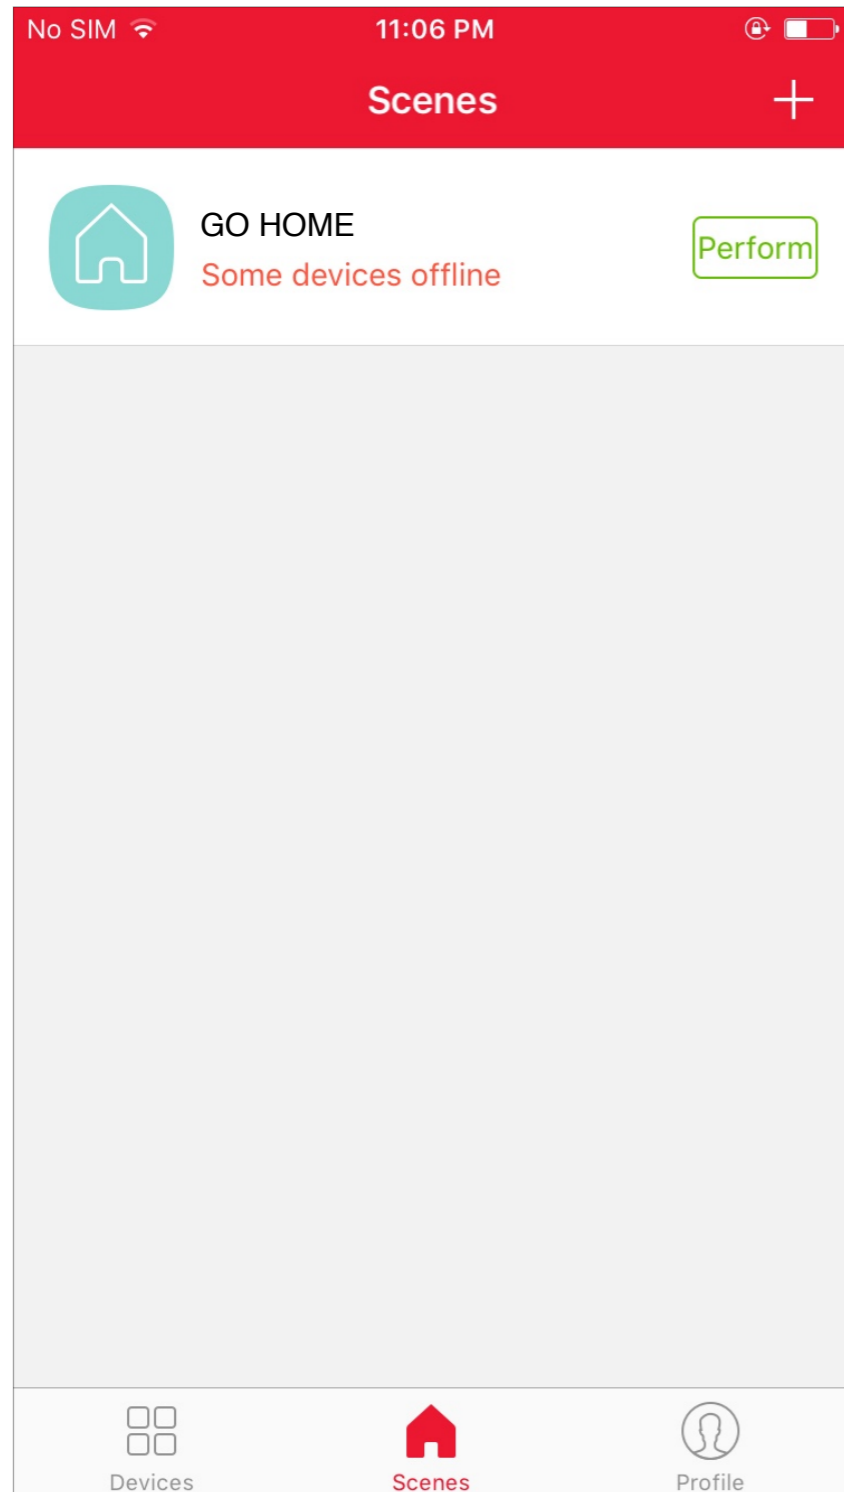

If your App interface is shown as in the picture, it means that the network connection failed. You could try by connecting again or view help.

After successfully configuring the devices, the smart device will be shown on the home page. Tap to enter its control page

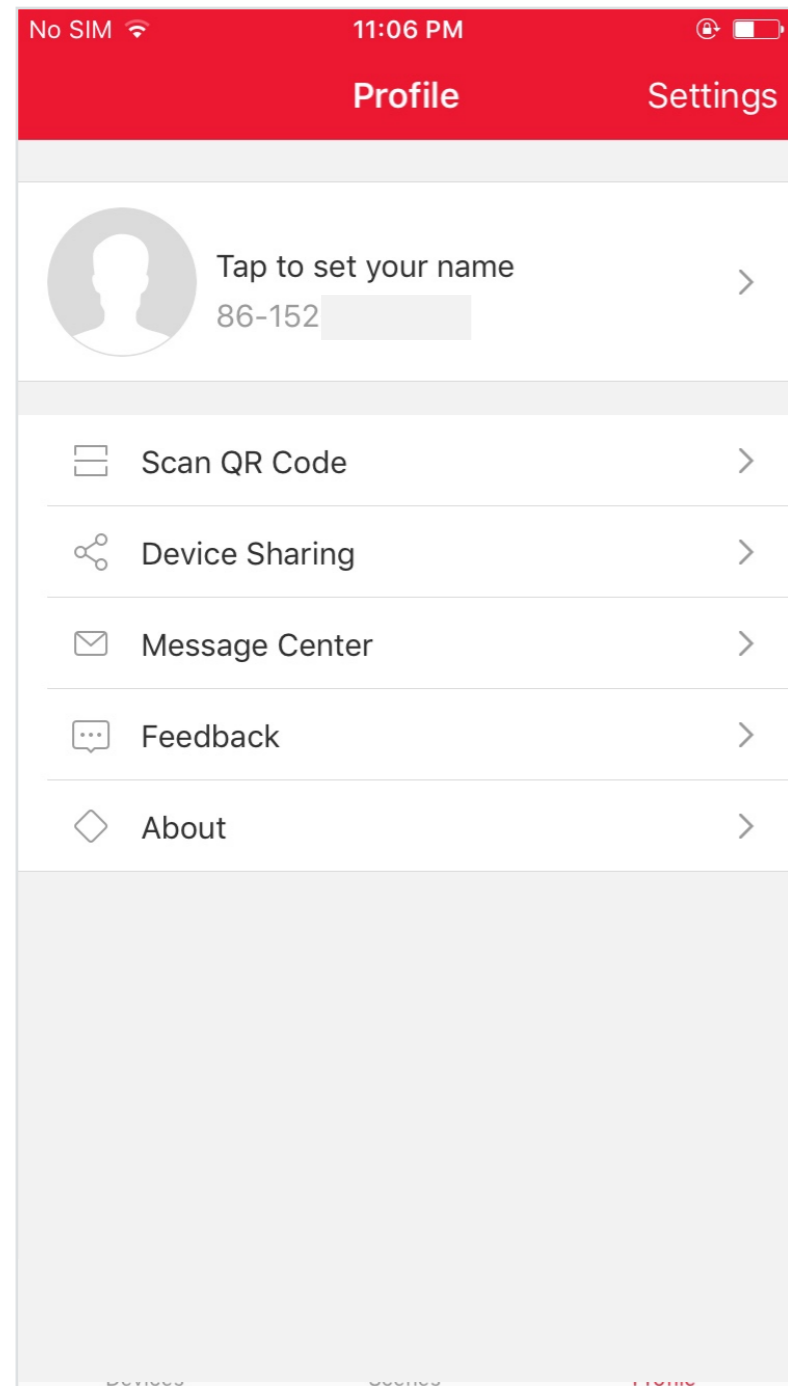

Note:

1. When device is online, it support short-cut operations
2. When device is offline, it displays “Offline” and can be controlled.

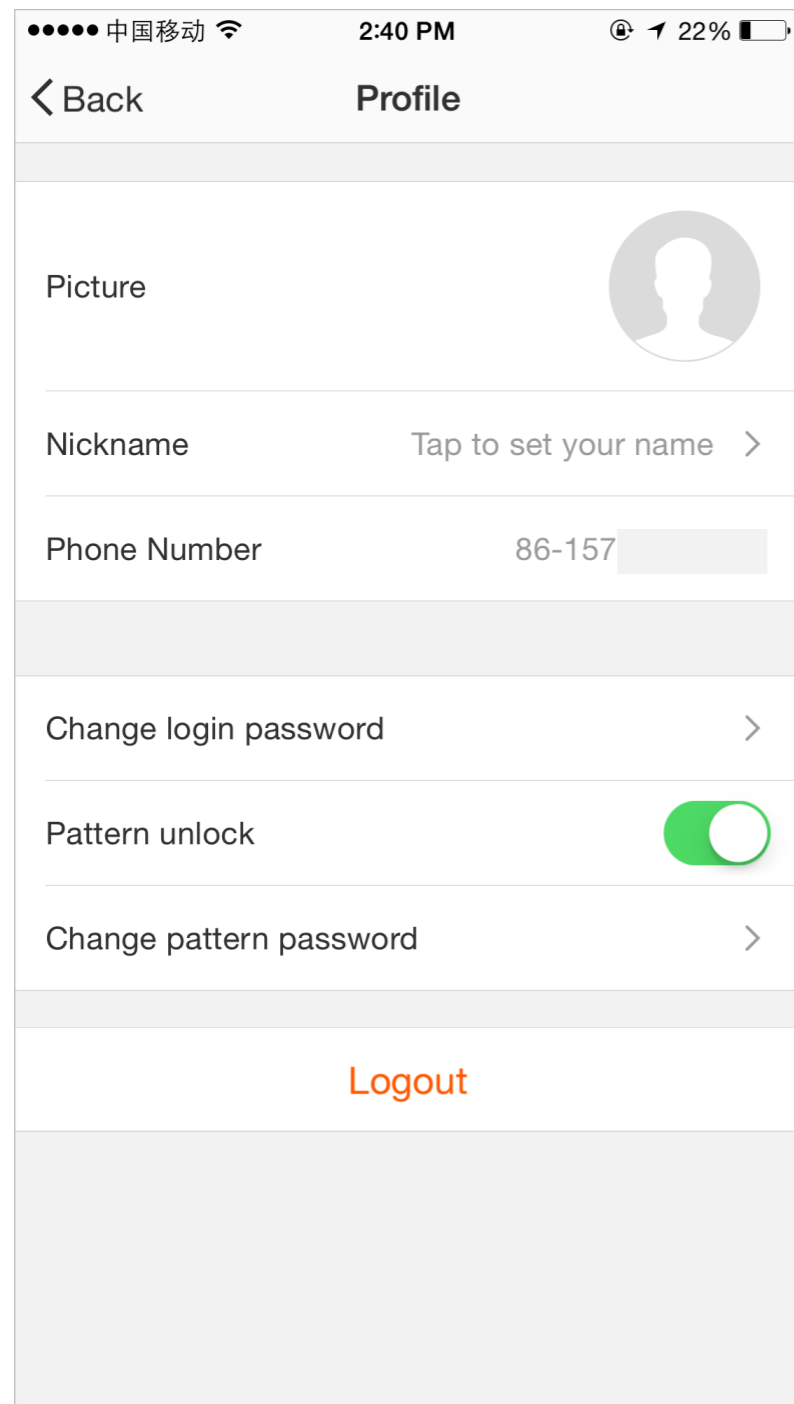

Smart life scenario supports that devices perform corresponding actions under various conditions. The main conditions include:

- 1.Temperature
- 2.Humidity
- 3.Weather
- 4.PM2.5
- 5.Air quality
- 6.Sunrise & sunset time
- 7.Device's actions (such as turn on/ff)

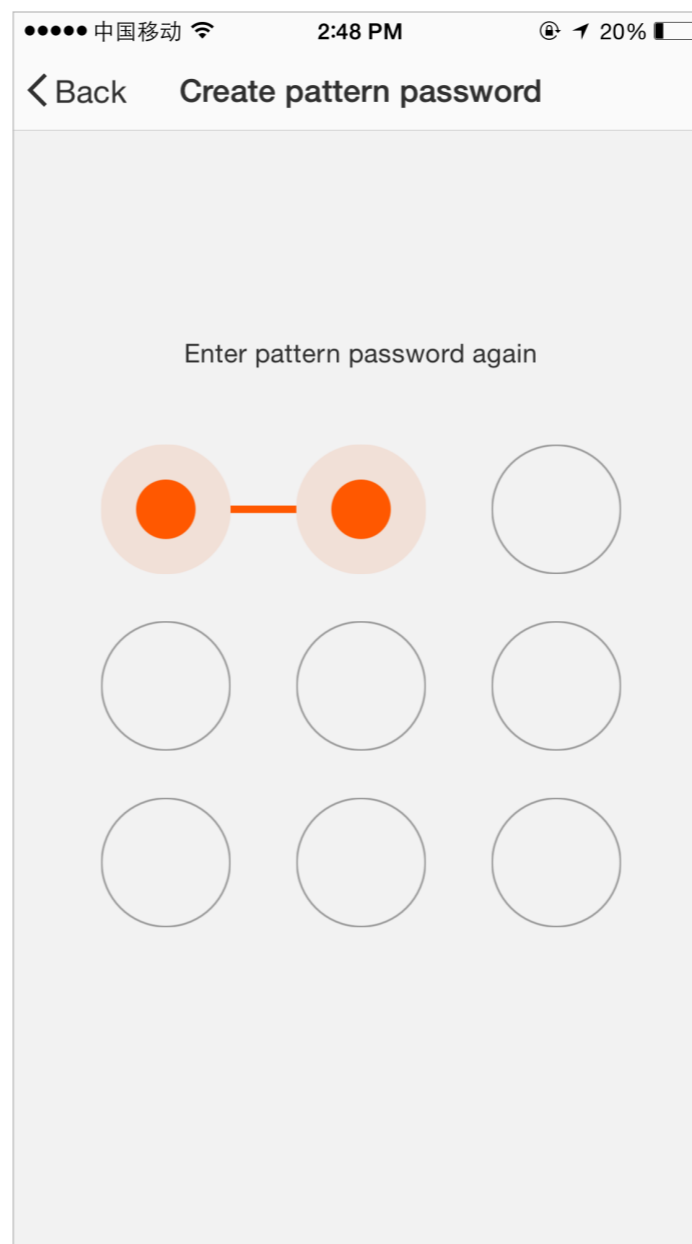

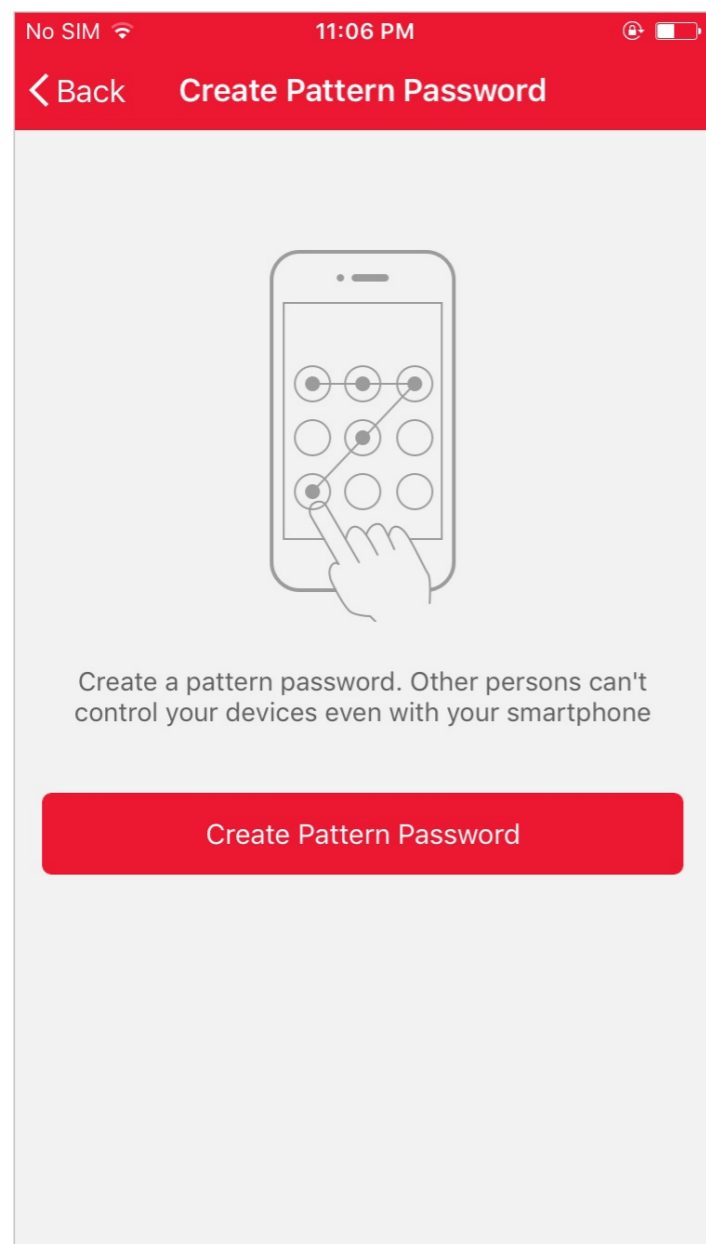

“Profile” page is where users could manage personal information. The key information is as follows:

1. Personal information
2. Device Sharing: display the information of shared devices
3. Message center
4. Entry to submit feedback
5. About

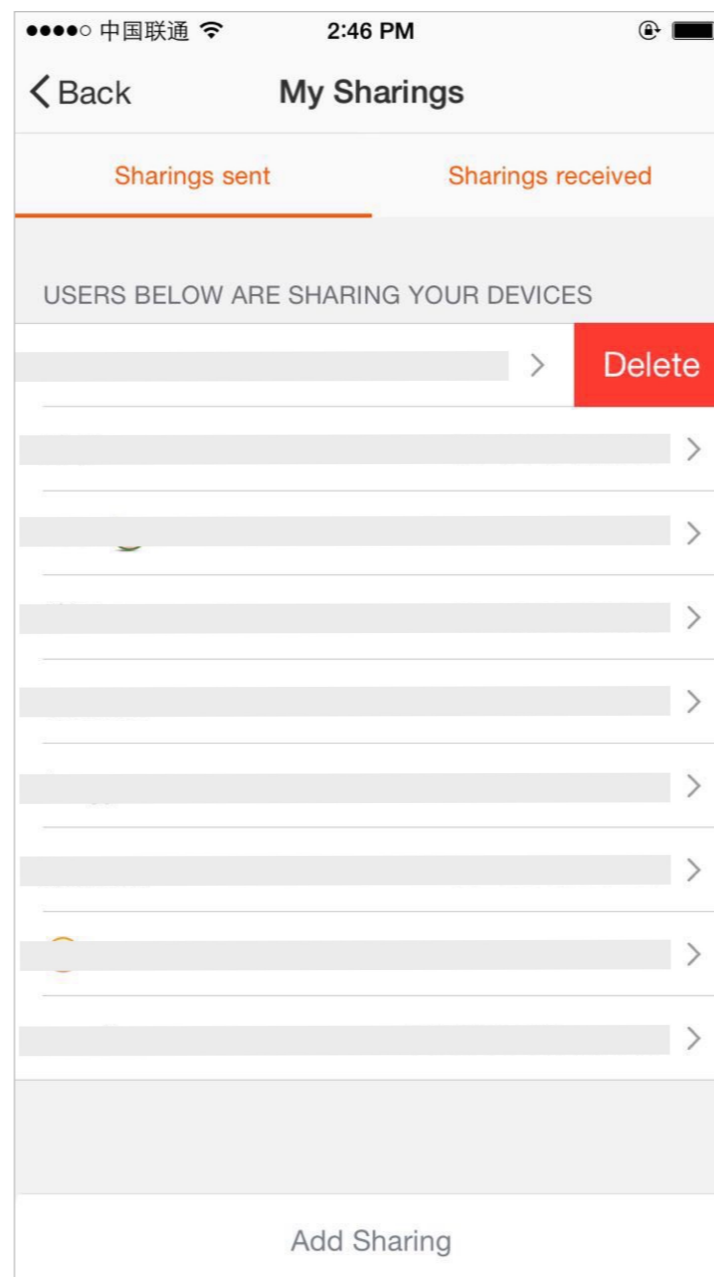

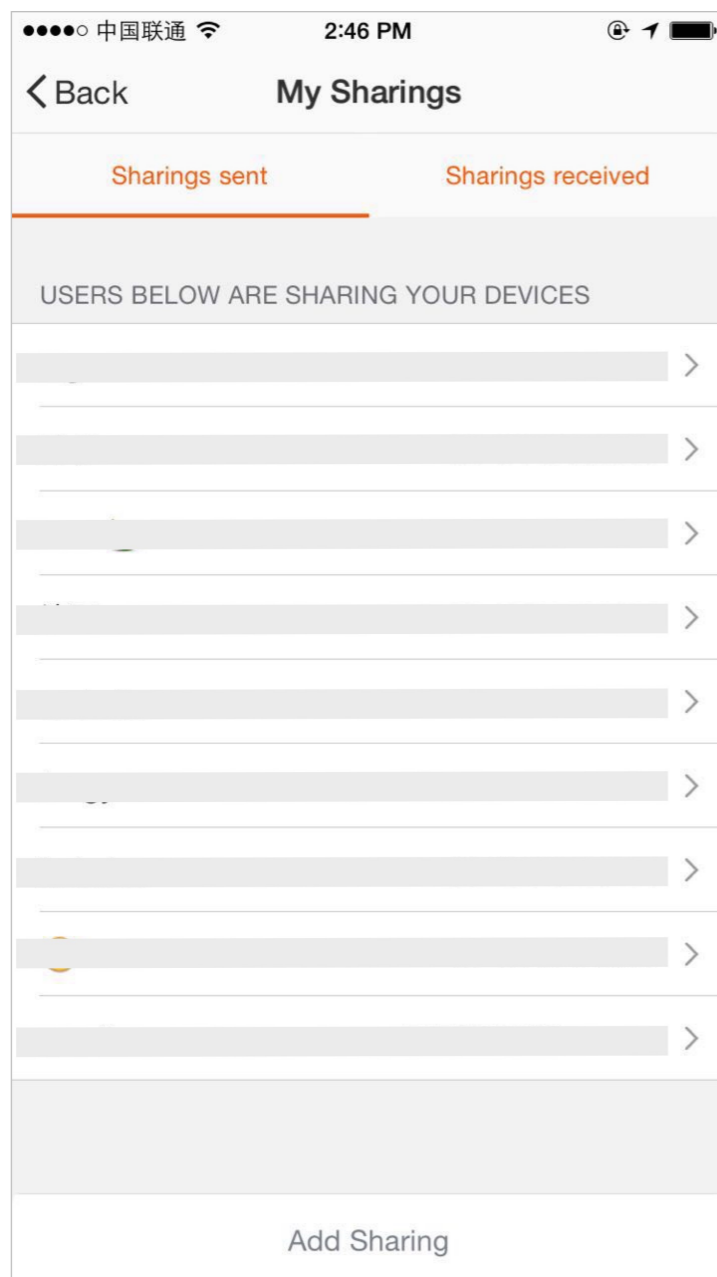

“Profile” page is for displaying personal account information. You can change login password, binding mobile number, set pattern unlock on this page.

Tap “Pattern unlock” to set your pattern. After setup, you have to enter your pattern to use the App

Send sharing: The list shows all members who are added by your account. You can delete the member and delete the sharing by swiping left.

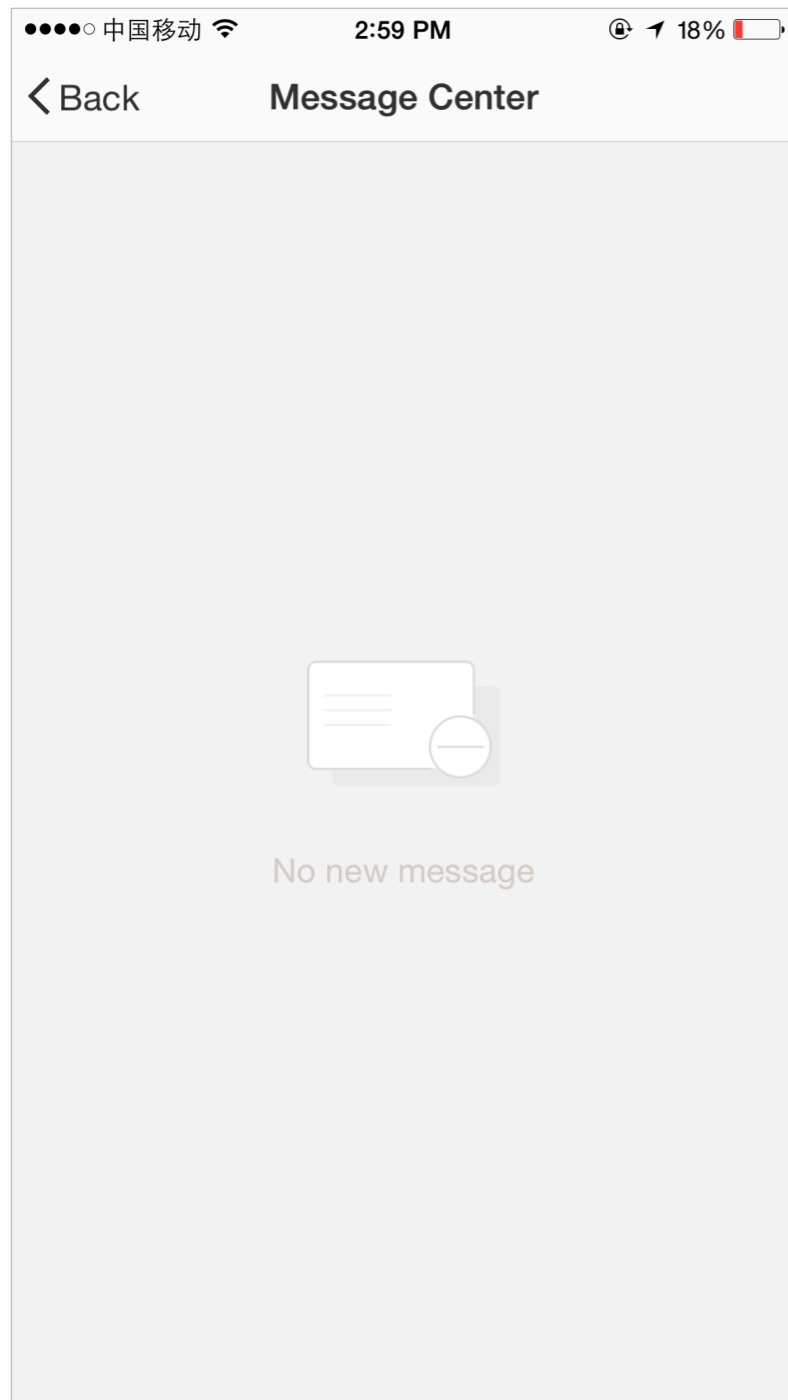

Receive sharing: The list shows all devices that your account has received. You can delete the sharing by swiping left.

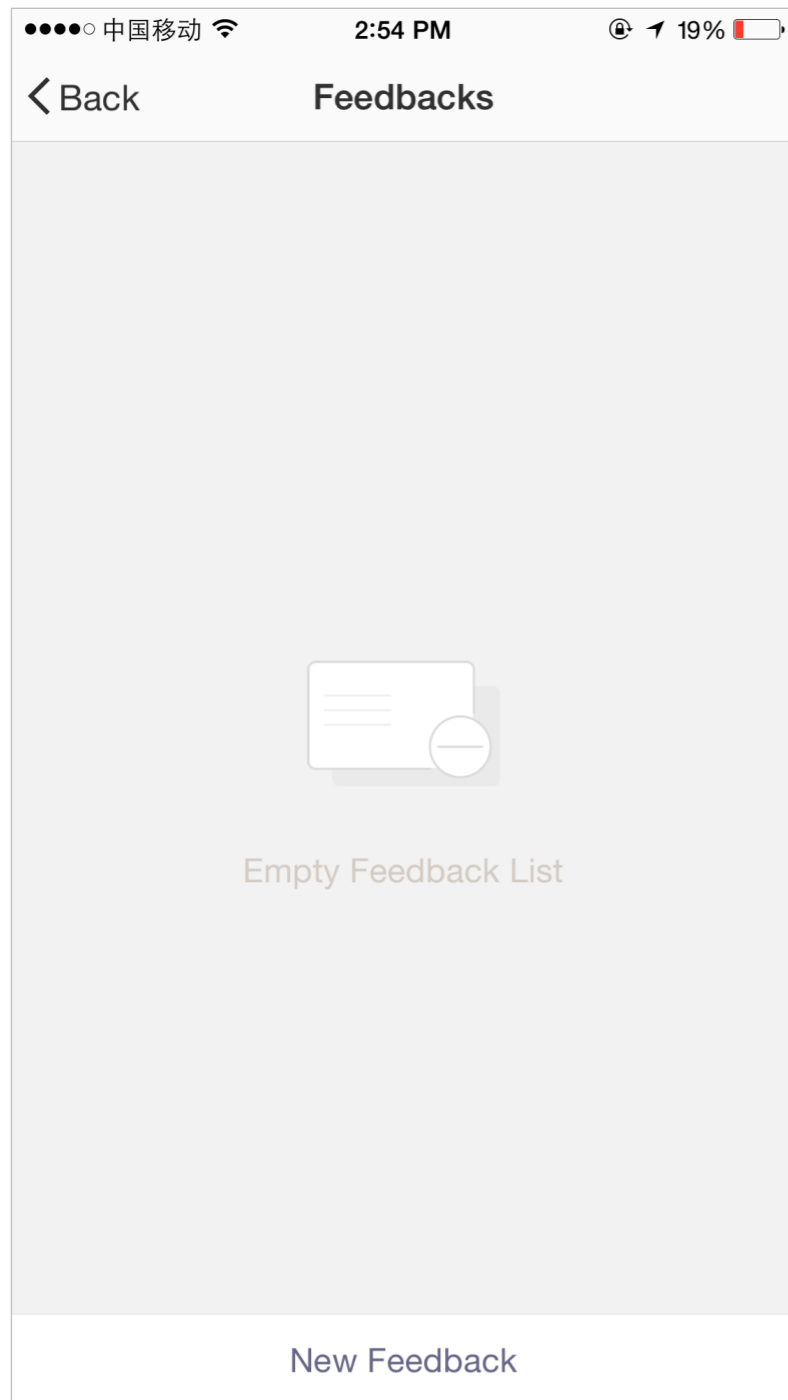

NO.5 Profile-Device Sharing

The screenshot shows a mobile application interface with a red header bar. The header contains a back arrow and the text "Back" on the left, and "Add Sharing" in the center. Below the header, the main content area has a light gray background. At the top of this area is the text "Add new member to use smart device". Below this is a form with two input fields. The first field is labeled "Region" and contains the text "China +86" followed by a right-pointing chevron. The second field is labeled "Enter mobile number/E-mail" and contains a red telephone icon on its right side. Below these fields is a large red button with the text "Confirm" in white.

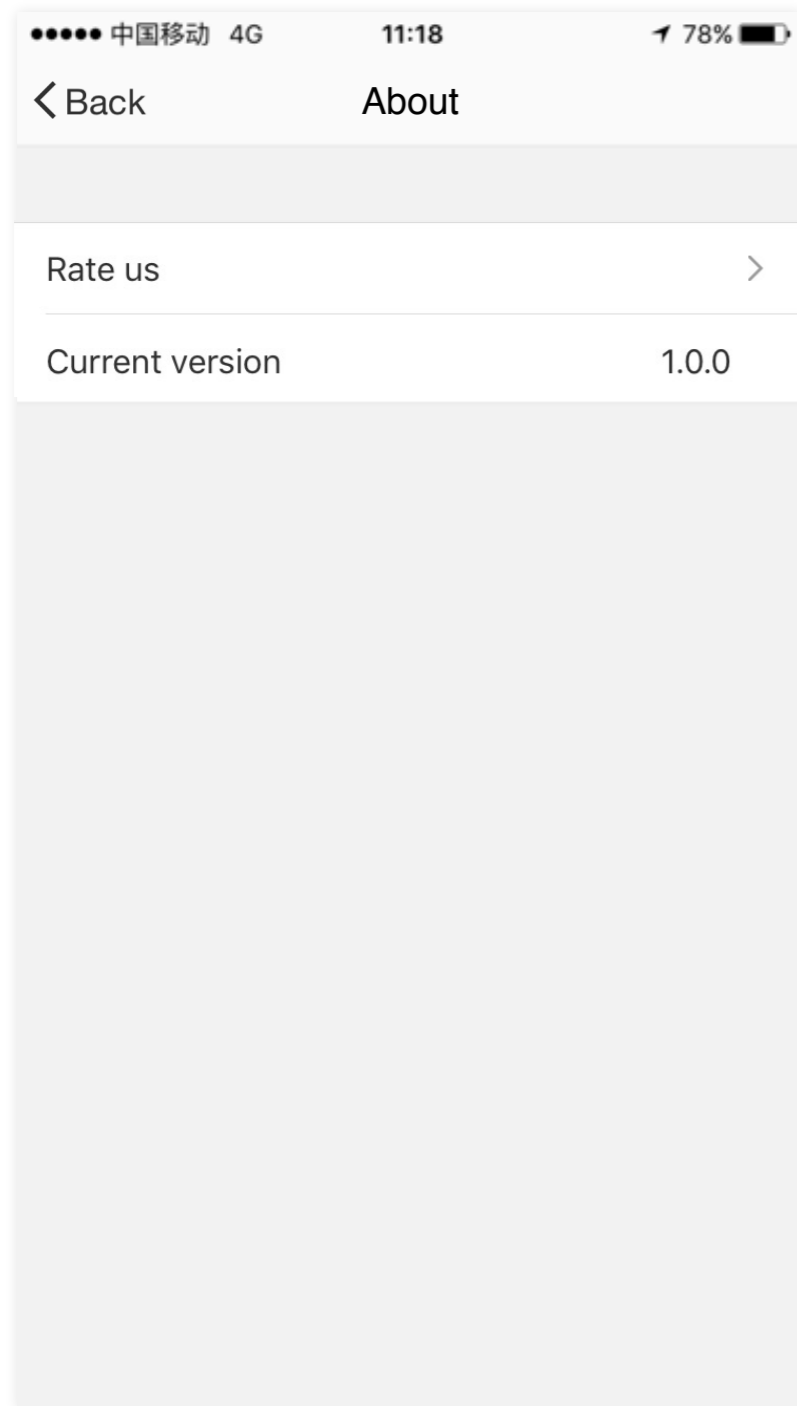

Add sharing: As shown in the picture, users could input a new member's mobile number and share the device with him. The new member could then control the shared device.

Message centre: Including notifications of new device and new sharing

Feedback: Entry where users could submit their feedback

App's other related information include:

1. Tap on "rate us", App will be redirected to a corresponding App market, where you could rate us

2. Show App version number

Caution:

This device complies with Part 15 of the FCC Rules / Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference. (2) this device must accept any interference received, including interference that may cause undesired operation.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

MPE Reminding

To satisfy FCC / IC RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

To ensure compliance, operations at closer than this distance is not recommended.

L'antenne installée doit être située

de façon à ce que la population ne puisse être exposée à une distance de moins

de 20 cm. Installer l'antenne de façon à ce que le personnel ne puisse approcher à 20 cm ou moins de la position centrale de l'antenne.

La FCC des États-Unis stipule que cet appareil doit être en tout temps éloigné d'au moins 20 cm des personnes pendant son fonctionnement.

Region Selection

Limited by local law regulations, version for North America does not have region selection option.

Thank You

Remark:

1) The pictures used in this manual are iOS app interface, Android version is a bit different.

2) Product and software update periodically, the number and app interface in this manual are only for example. No extra notification on further changes.
