RE: Revised "Draft" Owner's Manual for FCC Identifier AMWUT888

Subsequent to initially uploading the original "Draft" Owner's Manual for the device identified as AMWUT888, we have updated our draft to include more specific instructions concerning the installation of the antenna.

Although the antenna selection and installation is the responsibility of the user and/or the installer, maintaining certain distances between the antenna and persons in proximity to the antenna has been included in these instructions.

Therefore, please accept the revised exhibit (ex-e-2.pdf) and disregard the original exhibit (ex-e-1.pdf) when reviewing this application for FCC Certification.

Thank you for your consideration in this matter. If you have any questions regarding the above, please do not hesitate to contact me at ([jhaynes @ uniden.com](mailto:jhaynes@uniden.com)) or by telephone at (843) 374-3852.
