Final folded size: 3 × 2.75 in. (76.2 × 69.85 mm)

QUICK SETUP GUIDE

Magnetic Wireless Charger

NS-MQM10W22WC

Before using your new product, please read these instructions to prevent any damage.

PACKAGE CONTENTS

- 10 W Magnetic Wireless Charger with 6 ft. (1.8 m) cable
- AC wall adapter (20 W)
- *Quick Setup Guide*

COMPATIBILITY

- Apple iPhone 12 series
- Any Qi-enabled devices including smartphones, headphones, and smart watches

FEATURES

- Wirelessly charges the iPhone 12 (7.5 W) or Android devices (10 W)
- Unique magnetic connector easily attaches to the back of your iPhone 12
- Attached USB-C cable plugs into wall adapters, car chargers, and more
- 6 ft (1.8 m) attached braided cable gives you flexible placement options
- Intelligent protection technology keeps your phone from overcharging and overheating.

USING YOUR CHARGING PAD

- 1 Plug the USB-C end into the AC wall adapter. Plug the adapter into a power outlet.

- 2 Place your Qi-enabled device on the center of your wireless charger with the screen facing out. Your device starts charging.

Note: The iPhone 12 series will directly attach to the wireless charger.

TROUBLESHOOTING

Device is not charging or charges slowly.

- Make sure that your AC wall adapter is connected to a working power outlet.
- Make sure that your device is positioned in the center of your charging pad.
- Make sure that there are no other objects on the charging pad.
- Try removing your device's case.
- Make sure that your device is Qi-enabled.
- Make sure that you are using the adapter that came with this product.
- Using the phone while it is charging will make it charge more slowly.
- Your device may charge more slowly with the charging pad than a charging cable. This is normal.

My device gets warm while charging

- It is normal for devices to get warm while charging.

NS-MQM10W22WC_21-0524_QSG_V1_EN.ai 2 7/28/2021 4:13:07 PM

SPECIFICATIONS

10 W Magnetic charging pad

Dimensions: 2.2 x 2.2 x 0.3 in. (56.5 x 56.5 x 7.7 mm)

Input: DC 5 V/3 A, 9 V/2.22 A, 12 V/1.67 A

Output: 5 W/7.5 W/10 W max.

AC power adapter:

Input: 100-240 V~50/60 Hz 0.5 A

Output: DC 5 V/3 A, 9 V/2.22 A

Cable length: 6 ft. (1.8 m)

SAFETY INFORMATION

- Avoid dropping.
- Do not disassemble.
- Do not place metal objects between devices and the wireless charging pads.
- Thick protective cases (≥ .1 in. [3 mm]) or a case that includes a magnet or metallic material (except MagSafe phone cases), may not allow proper charging function.
- Keep wireless charging pad away from any liquid or moisture.
- The maximum ambient temperature during use of this product must not exceed 104° F (40° C).
- Do not place this device in fire or other excessively hot environments.
- This product is intended for home office use.
- For indoor use only.
- Consult local staff before using the product near medical or industrial equipment or on board an aircraft.
- Prevent cables from being pinched or damaged.

- A damaged cable or device may malfunction and/or overheat. (Fire hazard).
- Unplug the product if not used for an extended period of time.

WARNING:

- People with pacemakers should keep away from the magnets. The magnets can negatively affect the function of the pacemaker.
- Do not place any bank or similar cards with magnetic strips or magnetically sensitive objects on the product. The data on the cards could be damaged or completely deleted.
- Ensure that there are no metal parts on the back of your device. Metal heats up significantly in the field of an induction charger and can damage your device and/or the charger.

LEGAL NOTICES

FCC Information

FCC Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC statement: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RSS-Gen statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
