A photograph of a custom PCB assembly, likely a microcontroller board, placed next to a ruler for scale. The ruler shows measurements in millimeters (0 to 100 mm) and inches (0 to 70 inches). The PCB is dark-colored and features various components including a microcontroller, memory chips, and other integrated circuits. The board is labeled with "TOP" and "BTD-1110". The components are densely packed on the board, and the ruler provides a clear reference for the board's dimensions.
