Authorization and Evaluation Division

Reference: FCC ID: DO4NEOPS

Dear Sir or Madam:

The EAS RF antenna pedestals NP10 PAB W/HUB and NP10 SAB provided for Emissions testing are worst case antennas for emissions. NG10 is same as NP10 except it is made from plexiglass. The only difference between the NP10 and NP20 is NP20 is narrower (smaller width) than NP10.

The Neo family of PAB and SAB consist of the following versions:

- NP10 PAB W/HUB
- NP10 SAB
- NP20 PAB W/HUB
- NP20 SAB
- NG10 PAB W/HUB
- NG10 SAB

Sincerely,

A handwritten signature in black ink, appearing to read "P. Bremer", with a stylized flourish at the end.

Peter Bremer
