

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a wooden desk holds a spectrum analyzer. To its right, on the floor, is a power supply unit with various cables connected. A large, light-colored wooden board stands vertically on the right side of the setup. A pair of black safety glasses is placed on top of the board. The background is a plain grey wall.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are lined with white, square-shaped electromagnetic interference (EMI) absorbers. In the center of the chamber, a yellow cardboard box sits on a circular turntable. A blue metal frame is positioned in the foreground, partially obscuring the view. The floor is grey and has yellow and black striped safety tape marked around the turntable area.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
