

### Getting started

Congratulations on your brand new Frameo photo frame! If you are new to using Frameo then start by fo**ll**owing the Frameo quick setup or follow the on-screen guide when powering it on for the first time. Start using Frameo Once you have set up your Frameo frame, you can start connecting it to your friends and family. with a code from your frame.

#### Frameo app To send photos to your frame, use the Frameo app for iOS or Android.

## Video tutorials Check out our "Frameo Tutorials" playlist on YouTube with informative videos where we guide you on how to get started using Frameo. Scan the code to the right or use the link to find the playlist.

Frameo quick setup

When starting your frame for the first time, you will need to set up the frame. Select a language. This will be the language used on the Frameo. • Connect your frame to the internet by connecting it to Wi-Fi. Verify or correct the date and time.

EN | 01

• Frameo may ask you to update to the latest version. It is recommended to update your frame before continuing if asked to. • Enter your name, and the location where you have placed your frame, e.g. "John Doe" and "Living room", "Kitchen" or "Office". Finally, set the timezone if not already correct.

The next step is to connect Frameo with your friends and family by providing them If you want to be able to send photos to the frame yourself, start by downloading the

# Connecting a new friend

Make sure that your friend has downloaded and installed the Frameo app. Click the add friend icon on your frame + . A dialog will appear showing a connection code, which is valid for 12 hours. Now share this code in whatever fashion you prefer e.g. SMS, E-Mail, IM, phone call, to

your friend. Once your friends have added the code in their Frameo app, they will automatically appear on your frame and be able to send you photos. Read chapter <u>Change options for a friend</u> to allow connected friends, to retrieve and share the connection code via the smartphone app.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.ct.

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.
