

Company letter

Model Declaration letter

To who concerns,

We,

Shenzhen Sperll Optoelectronic Technology Co., Ltd.

4th Floor, Building 3, NO.1059 Songbai Road, Nanshan District, Shenzhen, China

hereby confirms below model difference:

Product name: LED Controller

Model number: SP802E

Models SP802E、SP803E、SP804E、SP805E、SP806E、SP807E、SP808E、SP809E are the same, These series of models only differ in the lighting data protocol of the firmware. Their main control chips are the same, the configurations related to Bluetooth and Wi-Fi are identical, and the adopted DCDC power supply schemes are also the same. The functions of the products are alike as well. It's just that since they need to be adapted to the data protocols of different lamps, the controllers are required to make corresponding adjustments.

Sincerely,

Signature: *Derek Xie*
