

Antenna Specifications for Radar Sensor

(For Millimeter wave corner Radar Sensor)

1. General Specifications

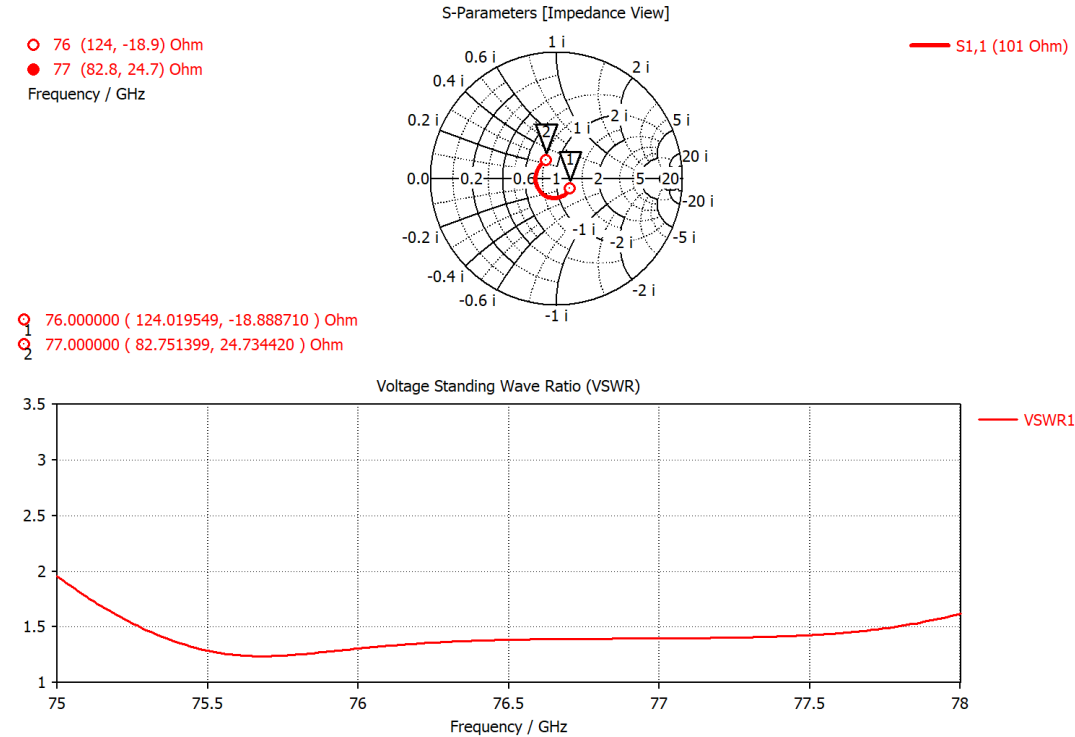

Items	Specifications
Antenna Type	Microstrip antenna
Frequency Band	76 to 78GHz
VSWR	2.0 max
Gain	15dBi max

2. Antenna Model

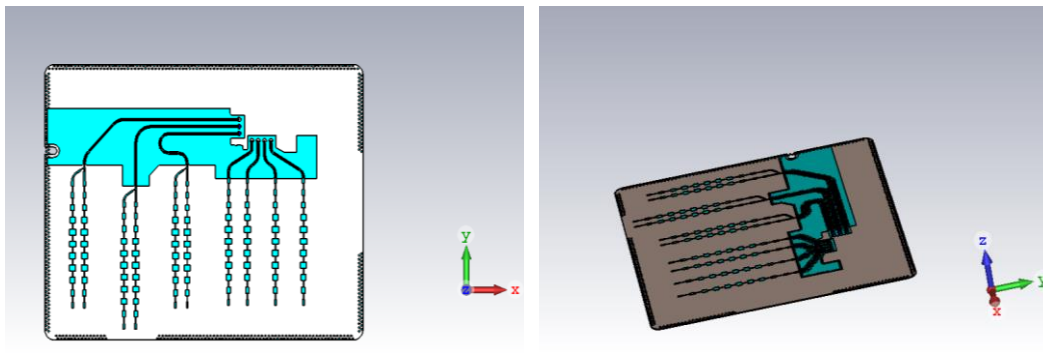

3. VSWR & Radiation Pattern

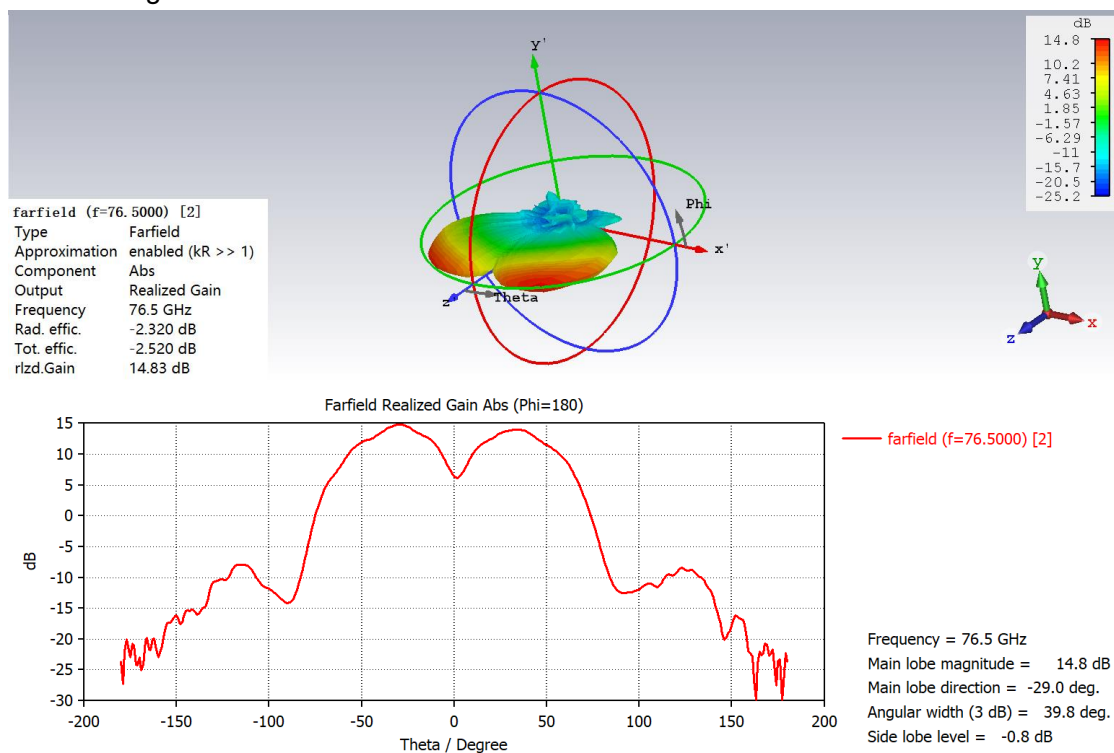

S11 & VSWR

Axis of Radiation Pattern

Radiation Pattern -3D Transmitting Antenna

Receiving Antenna
