

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) with various electronic components. The board is oriented vertically. A ruler is placed horizontally at the top and bottom of the board for scale. The top ruler shows markings from 0 to 100 mm. The bottom ruler shows markings from 0 to 100 mm. The board features a central microcontroller unit (MCU) labeled 'SH510', a USB connector at the top, and various other components including capacitors, resistors, and a small antenna. The text 'RoHS' is visible on the board.
Solder Board-Component View 2	 A photograph of the same green PCB from a different angle. The board is oriented vertically. A ruler is placed horizontally at the top and bottom of the board for scale. The top ruler shows markings from 0 to 100 mm. The bottom ruler shows markings from 0 to 100 mm. The board features a central microcontroller unit (MCU) labeled 'SH510', a USB connector at the top, and various other components including capacitors, resistors, and a small antenna. The text 'RoHS' is visible on the board.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'J1', mounted on a blue textured surface. The component features a series of 18 yellow LED chips arranged in a single row. A black ruler with white markings is positioned below the component, showing a scale from 0 to 100 mm. The component is approximately 60 mm long and 10 mm wide.
Solder Board-Component View 4	 A photograph of the same green PCB component, labeled 'J1', mounted on a blue textured surface. The component features a series of 18 yellow LED chips arranged in a single row. A black ruler with white markings is positioned below the component, showing a scale from 0 to 100 mm. The component is approximately 60 mm long and 10 mm wide. The text 'UNIBI-1031-WLED-REV1_1' and '20200304' is visible on the component, along with the 'RoHS' logo.
