Authorization and Evaluation Division

7435 Oakland Mills Rd

Columbia MD 21046-1609

U.S.A.

Subject: Description of Permissive Change

To whom it may concern,

Pursuant to CFR 2.1043, Fortinet Inc., hereby requests a Class II Permissive Change for the following project(s):

FCC ID: TVE-06836 (Grant date: 11/12/2009)

The purpose of this permissive change is to show compliance with new NII rules for all sub-bands supported by this device (U-NII-1, U-NII-2a and 2c, and U-NII-3).

The changes filed under this application are:

- 1.) This project is a Permissive Change for the purpose of upgrade standards version for 5150~5250 (U-NII-1) MHz and 5725~5850 (U-NII-3) MHz to FCC "New Rules" (KDB789033 D02).
- 2.) This is a client only device, both DFS bands (U-NII-2a: 5260~5320 and U-NII-2c: 5500~5700 MHz) are not affected by this change.
- 3.) Transmit power has been adjusted by software/firmware to comply with the UNII new rules, and these power settings cannot be changed by end-user/installer.
- 4.) The conducted DTS output power remains the same with DTS filing dated 11/12/2009 for operation in 2.4G bands.
- 5.) The RF exposure assessment for mobile categories under original grant is completed in a higher declared tune up power level and hence the assessment to a reduced power declared under this C2PC application is not needed.
- 6.) There are no changes in hardware of existing RF relevant portion.

Sincerely yours,

Applicant's company name : Fortinet Inc.

Applicant's company address : 899 Kifer Road Sunnyvale, CA 94086, USA
