3-in-1 Wireless Charging Station

User Manual

Thank you for choosing the Wireless Charger. Please read this user manual carefully before use and keep this manual in a safe place for future reference.

Safety Precautions

- 1.DO NOT place or use the product in the high-temperature environment such as intense sunlight and fire(Note: There may be explosion if the product is in the environment over 212F/100 ℃).
- 2.DO NOT use the product in excess of its output rating to avoid fire or injury.
- 3.DO NOT expose the product to rain or snow.
- 4.Non-professional personnel are not allowed to modify, repair or disassemble the product without authorization.
- 5.Please remove your phone case before charging if the thickness >4mm/0.16in.
- 6.Keep out of reach of infants and children.
Note: To ensure the safe and efficient charging of 3 devices, it is imperative to utilize a 9V/2A adapter(Qualcomm Quick Charger 2.0 or 3.0)in conjunction with a quick charging cable. Failure to employ the suitable adapter and cable may result in the charger's inability to charge a phone or 3 devices simultaneously.and could potentially lead to charger damage.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Specifications

Input : 9V $\overline{=}$ 3A
Output : For Phone 15W Max
For TWS 5W Max
For Watch 3W Max

Package Contents

3-in-1 Wireless Charger * 1
