

NORTHWEST EMC, INC.

22975 NW Evergreen Parkway, Suite 400
Hillsboro, OR 97124

October 18, 2006

Dear Application Examiner:

A problem was identified with the 802.11 technical report for FCCID: EHADHIB. The Output Power (for the 802.11 bg portion) should be 0.175W, but the grant currently shows 0.192W.

We would like to submit a revised test report to supersede the current report on file.

Best regards,

Northwest EMC, Inc.
