

# Letter of Declaration

## Product Equality

May 19, 2023

We, as a manufacturer, hereby declare that our product has variant model names as listed below.

Variant model is totally same as basic model but the only difference is use.

There is no difference in appearance, PCB board, and hardware, and only the measurement list of software to distinguish the analysis target is different.

Model name		Description
Basic model	Confiscope F40	- Representative production model
Variant model	Confiscope F40V	- Same as base model, but the only difference is the use. It is for animal analysis.

Sincerely yours,

Chom Kyu Chong
