

Legal, safety, and regulatory

Legal information. This guide provides important legal, safety, and regulatory information that you should read before using your product.

Regulatory information (e-label). To view regulatory information for this device, use the HMD port to connect the device to AR glasses or a DP (DisplayPort) capable display and turn device on. Navigate to **Settings > About device >**

Regulatory labels. If connected display is a PC or not DP capable, use the Vysor app to establish the interface and navigate to **Settings > About device > Regulatory labels.**

Battery safety. To prevent possible burning and injury, the battery in your phone should only be removed by a Motorola-approved service center or similar skilled personnel.

Charge your product using a compatible Motorola charger (may be sold separately). Use of other chargers is not recommended. Don't charge your phone in temperatures below -20°C (-4°F) or above 45°C (113°F). Chargers that do not comply with applicable national standards may be unsafe, with risk of death or injury, and may cause slow charging, product damage, or reduced device performance.

Driving precautions. Responsible and safe driving is your primary responsibility when driving a vehicle. Always obey local laws and regulations.

Medical devices. This device may interfere with pacemakers and other medical devices.

Warning about high volume usage. To prevent possible hearing damage, do not listen at high volume levels for long periods. 

Disposal & recycling. For help recycling products and packaging responsibly, go to www.motorola.com/recycling. 

Legal disclaimers. Product specifications and other information contained in this guide are believed to be accurate at the time of printing. Motorola reserves the right to correct or change any information without notice.

FCC compliance. This phone complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this phone may not cause harmful interference, and (2) this phone must accept any interference received, including interference that might cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
