MEMORANDUM

TO:

REVIEWING ENGINEER

FROM:

UNIDEN ENGINEERING SERVICES

DATE:

OCTOBER 26, 1999

SUBJECT:

CORRECTION TO LINE ENTRY OF FCC FORM 731

RE:

PREVIOUSLY FILED APPLICATION - CONFIRMATION #: EA95588

FCC ID:

AMWUB310

Subsequent to our filing the above referenced application, it was brought to our attention that we had been provided with one of the wrong frequency range entries.

On the "Electronic FCC Form 731", there is a section called "EQUIPMENT SPECIFICATIONS". Under this heading, there is a sub-heading named "Frequency range in MHz". The second entry was entered as:

108 to 136

This was WRONG

The actual entry should have been:

108 to 136.975

All other frequency range entries, and all other entries on the FCC Form 731, are correct to the best of my knowledge.

I sincerely apologize for this mistake and would very much appreciate it if this could be corrected. Thank you in advance for your consideration in this matter. Please contact me if you have any questions or require any additional information.

Sincere regards,

James R. Haynes

Vice President, Engineering and Regulatory Affairs
