A white, rectangular, slightly curved object, possibly a small electronic device or component, resting on a blue surface next to a black ruler marked in centimeters. The ruler shows measurements from 0 to 100 cm. The object is positioned horizontally, with its longer side parallel to the ruler. The ruler is placed below the object, with the 0 cm mark on the left and the 100 cm mark on the right. The object's length is approximately 10 cm. The background is a solid blue surface.
