Wireless Power Bank

Model:WPN

Instruction manual

1. Power Button
2. Power Level Indicators LED1-LED3
3. Dual USB Output
4. Type-C Input

Accessory list:
Type C - USB charging cable X 1

Capacity: 10000mAh@3.7V 37Wh
Input: 5V=2.4A, 9V=2A
Output USB C: 5V=3A, 9V=2A, 12V=1.5A
Output USB A1: 5V=3A, 9V=2A, 12V=1.5A, USB A2: 5V=2.1A

How to Check the Power Level

- Power Level Indicators: this portable power bank has 3 power level indicators which enable you to check the remaining power conveniently.
- You can check the power level by pressing the power button, shown as the above LED introduction.

Special Tips

- Do not use the portable battery pack to charge other device and charge the battery pack itself at the same time;
- If not in use, you are suggested to disconnect the external AC power adapter or DC cable with the portable battery pack;
- If the battery pack's output voltage is lower than the rated voltage / working voltage of your devices, the devices might not be charged or fully charged. But if the battery pack's output voltage is higher than the rated voltage / working voltage of your devices, and if the management system cannot support such situation, it might overcharge your devices or damage the battery pack itself or even damage your devices.

How to Use

Charge the battery pack itself by a AC power adapter

Use the battery pack to charge mobile phone

Wireless power charging

Take the cable out for charging your device anywhere

1) How to Charge The **Wireless Power Bank** Itself

If the **Power Bank** is in a low power state, you should charge it by a PC or an external AC charger. Use the attached Type C USB cable to charge the battery pack by connecting it to a PC's USB port.

2) How to Use the **Power Bank** to Charge Other Devices

Taking iPhone 8 as an example,

- ① Choose the attached Apple charging cable,
- ② Plug the USB connector to the **Power Bank**'s USB output and then plug the Apple connector to your iPhone.
- ③ Power bank will discharge automatically after device is connected, and the power indicators will turn off in 5s.

The names and contents of toxic and hazardous substances or elements in the product (Made in China)

Product Name	Toxic and Hazardous Substances or Elements					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Portable Battery Pack	X	O	O	O	O	O
O: Means (that) the content of this harmful substances in all the parts of homogeneous material is under S/T11363-2006 required standards.						
X: Means (that) the content of this harmful substances at least in parts of a homogeneous material is within S/T11363-2006 required standards.						

Safety Instructions

FCC warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body

FCC ID: 2ASBY-WPN
