SUBJECT: Benq Corporation
FCC ID: JVPH0622
731 Confirmation No.: EA509014
Correspondence Reference No.: 23425
Request for Tech. Info.: 7/24/02

Dear Andy:

Transmitted herewith, on behalf of **Benq Corporation** is an amendment provided in response to the request for technical information dated July 24, 2002.

1. Please note that for SAR test, the power was reduced by 1dB and EMC tests were repeated. Please find attached the revised EMC test report pages.
2. Please find attached the system validation per Supplement C.
3. Please find attached the liquid dielectric property measurement data.
4. The phone was controlled using **Benq's** keypad test codes (included in this filing). The power was measured before and after each SAR test.
5. Please find attached new SAR plots with ambient and liquid temperature.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.

Randy Ortanez
President
