RE: FCC ID: AB6NT1900MFRM2-FP\_ATCB002772  
Attention: Thomas Wong

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the manual states "Each FRM can support one CDMA carrier on one sector." This indicates that the emissions designator for this application would be 1M25F9W only and not the other two and three carrier designators as these other designators are achieved by adding transmitter modules. Based on conversations with the FCC does this application follow the same single emissions designator (i.e. are each of the carriers separate carriers)? Please confirm/explain.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
