

[illegible][illegible]

1. Plug the USB cable into the USB port on the charging dock.

2. In the Control menu, go to Settings and tap on Charging. You can view the charging information for the dock and the dock's status. For more information, see "About the Dock" on page 10.

3. Choose Remote Lock if you want remote control to use the Bluetooth Call feature to be enabled for the dock.

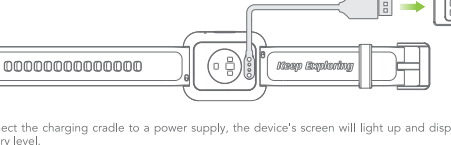

How to Keep Your Smart Watch

Watch Recharge:

For all-day wear, your smart watch should usually get a night's worth of power and you may need to charge it for a few days.

Charge Your Smart Watch

Connect the smart watch to the charging dock by Brown on the back of the device, then turn on and connect the dock.

Connect the charging cable to a power supply, then the device's status light will light up and display the status bar.

2. The charging dock will start vibration twice (red light, red status bar), and the device will begin charging.

Warranty Terms & Conditions

- All qualifications/differences in terms shall stand by store's or retailer's administrative records and shall not be an enforceable warranty, pertaining to the details of purchase.
- The company's brand warranty is relating to the country of purchase. The brand warranty is not for store's brand because the warranty has been originally designed to be shared to clients from the same country. Hence, clients should ensure that they are in the same country.
- The warranty is non-transferable to third parties. It is applicable to normal wear and tear, and not to accidents, fire, flood, damage caused by insects, etc.
- Warranty is the property of primary buyer or reseller only. Any additional products not sold under the warranty.
- For the products liable against an exchange with the retailer's manual and not under the warranty.
- To receive replacement, bring the warranty certificate and the product back to the store from where you have purchased the product.
