Power Adapter

USB Cable

Aarmor 17 Pro is included an internal battery, you can track your battery status with the icon showed on the top right of the screen.

Charging

Type	Li-Polymer Battery
Charging Voltage Limit	4.4V

Please note that in this model battery is not replaceable by a user.

Warning

- Use only Ulefone-approved batteries specifically designed for your phone.
- Incompatible batteries can cause serious injuries or damage to your phone.
- Never place batteries or phones on or in heating devices, such as microwave oven or radiator. Batteries may explode when overheated.

Language

Enter the Settings app, scroll down to find the "Language and Input" setting, and then select your language in the list.

Dialing

You can call from the Phone app, the Contacts app or other apps and widgets. Whenever you see a phone number, you can click it to make a call.

To make a call to one of your contacts:

1. Touch "☎" on home screen or in the apps drawer.
2. Choose or search out a contact.
3. Place a call to the contact.

For latest calls, please go to the recents list "🕒".

You can also input the phone number on the dial pad "☎" to make a call.

Message

To send a message:

1. Press "✉" on the home screen or app drawer.
2. Press "✉" to write a new message.
3. Type contact name, phone number, or press "👤" to add one or more contacts as message receivers.
4. Type text message.
5. Press "📎" to add pictures, videos, or audio files.
6. Send message by pressing "➤".

Photography

To take a photo:

1. Open camera "📷".
2. Frame your picture.
3. Touch the shutter "📸" to take the picture.

It's normal that some systematic texts are not translated to your language.

Safety Information

Please read this safety information carefully so that you can use your phone in complete safety

1.Children : Be very careful with children and your phone. A mobile phone contains a number of detachable parts. Exercise great care when children are in close proximity to the phone. The phone contains small parts that could be swallowed or cause choking. If your phone is equipped with a camera or lighting device, do not use it too near children or animals.

2.Hearing : Prolonged listening at full power using a lightweight headset or headphones can damage your hearing. Reduce the volume to the lowest possible level when listening to music or conversations. Avoid high volumes over extended periods.

3.Driving : Exercise care when driving. Driving requires maximum attention at all times in order to minimise the risk of accidents.

Using a mobile phone can distract the user and result in an accident. You must fully comply with the local regulations and laws in force regarding the use of cell phones whilst driving. You are not allowed to use the phone whilst driving. A hands-free kit should not be regarded as an alternative solution.

Flying : Turn your phone off when flying. Remember to turn your phone off when you are in a plane as it may cause interference.

4.Hospitals : Turn your phone off near any medical devices. It is extremely dangerous to leave a phone switched on near medical devices as it may cause interference. You must observe any instructions or warnings in hospitals and treatment centres. Remember to turn your phone off in service stations. Do not use your device in a petrol station near fuel. It is dangerous to use your phone inside a

professional garage.

5.Electronic implants and pacemakers : Users who wear a pacemaker or who are fitted with an electronic implant must hold the phone on the opposite side to their implant as a precaution when making a call. If you notice that your phone is causing interference with a pacemaker, switch it off immediately and contact the manufacturer of the pacemaker for advice on what action to take.

6.Fire hazard : Do not leave your device near heat sources such as radiators or cookers. Do not leave your phone charging near flammable materials as there is a real risk of fire.

7.Contact with liquid : Do not expose the phone to liquid or touch it with wet hands ; any damage caused by water may be irreparable.

8.Use only ulefone-approved accessories. The use of unauthorised accessories may damage your phone or cause a safety risk.

9.Do not destroy the batteries and chargers. Never use a battery or charger that has been damaged, keep batteries away from magnetic objects as the latter might cause a short-circuit between the positive and negative terminals of your batteries and permanently destroy the battery or phone. As a general rule, you should not expose the batteries to very high or low temperatures (below 0°C or above 45°C). Differences in temperature may reduce battery autonomy and service life.

10.Shocks and impact: Handle and use your phone with the utmost care. Protect your phone : shocks and impact may damage it. Some parts of your phone are made from glass and might break if the phone is dropped or is subject to severe impact. Avoid dropping your phone. Do not touch the screen with sharp objects.

11.Electric shock : Do not try to dismantle your phone as

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
- This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of this Device GQ3100 (FCC ID:2AOWK-3100) has been tested against this SAR limit. SAR information on this can be viewed on-line at <http://www.fcc.gov/oet/ea/fccid/>. Please use the device FCC ID number for search. This device was tested for typical operations 10mm from the body. To maintain compliance with FCC RF exposure requirements, 10mm separation distance should be maintained to the user's bodies

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However,

there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
