## SAFETY INSTRUCTIONS

Keep the unit away from heat sources, direct sunlight, humidity, water and any other liquids. Do not operate the unit if it has been exposed to water, moisture or any other liquids to prevent against electrical explosion and/or injury to yourself. Do not damage to the unit. Do not use the unit if it has been dropped or damaged in any way. Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk. Do not puncture or harm the exterior surface of the product in any way. Keep the unit free from dust, lint, etc. Do not use this unit for anything other than its intended use or purpose. Doing so may damage the device. This product is not a toy. Keep out of reach of children. Do not use the speaker at excessive volume to cause hearing loss. Do not expose batteries, battery pack, or batteries to installed to excessive heat, such as direct sunlight, or open flame.

Play your music wirelessly on all 5 speakers up to 100' from the AirBase.  
Speakers work together or on their own as Bluetooth® speakers.  
Portable so your music goes where you do.  
IPX4 water resistance (if they get splashed a little, no worries).  
Works through most of the walls in your home.  
Can be recharged using lithium-ion battery.

The speakers work best if they're within 20' of your smart device. If you're out of range or your wireless connection is weak, your music may cut out briefly. Don't worry: Please make sure Bluetooth® is enabled before you start the pairing process.

But wait, there's more. You can also pair each AirConnect speakers to its own Bluetooth® Source to use as a separate Bluetooth® Speaker. Whoa, sounds complex, right? It's not. Just 3 little steps.

*\*Disclaimer: Both right speakers and left speakers have the same pairing names. Some devices may not allow you to pair to one of the speakers when you have already paired to a different speaker with the same name. You might need to delete the pairing name and try to re-pair.*

Audio output of the Air can be used to connect to an alternate audio system, such as a home theater system, or a TV, by plugging the audio cable into the "OUT" jack on the Air to the "line in" of the audio playback device of your choice.

Make sure your speakers are within range of your smart device.

If you hear a long beep or a voice indicating low battery, you need to recharge your speakers. Connection may be lost due to low battery.

When charging your speakers, only use the enclosed USB cable.

Power Adapter: Micro USB 5V 5A  
Charging Time: AirBase: Up to 2.5h, AirConnect: Up to 2.5h  
Audio Input: AUX  
Buttons: 5 Mechanical Buttons: Play/Pause; Vol+; Vol-; Mode/Pow  
Material: ABS + Rubberized Grill  
Bluetooth® Names: AirBase, Air, AirConnect; Air left/Air right  
Bluetooth® Range:  $\leq 32.8\text{ft}$   
Water Resistance Grade: IPX4  
Dimensions:  $11.53" \times 4.02" \times 3.68"$   
Weight: AirBase: 73lbs / 33kg, AirConnect (1 piece): .48lbs / .22kg

[illegible]

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not properly installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to other electronic equipment, you may be required to take certain actions at your own expense, such as:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

For more information, contact your dealer or an experienced radio/TV technician for help.

Keep away from water and moisture. Keep away from heat sources. Do not disassemble.
