

Model difference description

There are three main models certified this time:

Main model number: Rigel 2

Submodel 1: Rigel 2 MAX

Submodel 2: Rigel 2 Lite

The main difference between Rigel 2 and Rigel 2 MAX is that the lens angle is different. Rigel 2 is the front lens Angle, Rigel 2 MAX is the rear lens Angle, and there is no difference in the rest.

The main difference between Rigel 2 and Rigel 2 Lite is different in appearance and lens Angle. Rigel 2 is the front lens Angle, Rigel 2 Lite is the rear lens Angle, and there is no difference in the rest.
