

Safety Human Exposure

1.1 Radio Frequency Exposure Compliance

1.1.1 Electromagnetic Fields

RESULT:

Pass

Report No.	: CN24WJCT 003
Test Specification	
Test item	: Portable Bluetooth Speaker
Identification / Type No.	: ASM02G
FCC ID	: 2AIMRASM02G
Test standard	: CFR47 FCC Part 2: Section 2.1093 FCC KDB Publication 447498 v06

Measurement Record:

The minimum distance for the EUT is less than 5mm.

Since maximum conducted output power of the transmitter is 9.44 dBm $\approx$ 8.79 mW <

$\frac{3 * d}{\sqrt{f}}$
specified. $\sqrt{f}$ = 9.52 mW.

Hence the EUT is excluded from SAR evaluation according to FCC KDB Publication 447498 D01 General RF Exposure Guidance v06.
