Inside view

This image shows the AK47-3126-BT V2.1 module PCB. Key components visible include the WiFi/BT chip (labeled AK47-3126-BT V2.1), the NTC thermistor, and various other components like capacitors and resistors. The PCB is blue and populated with numerous surface-mount components. A red wire is connected to the NTC thermistor, and a black wire is connected to the WiFi/BT chip. The module is mounted on a white PCB, and a yellow ribbon cable is visible on the left side.
