

Declaration for U-NII 5.9GHz devices

July 10, 2023

UL Verification Services Inc.
47173 Benicia Street, Fremont, CA 94538

FCC ID :N6C-WDCU3310H
Applicant :Silex Technology, Inc.

To Whom It May Concern:

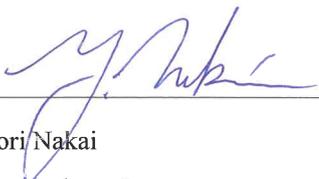

We declare that the applying product (Wireless E84 Digital Communication Unit) is a Client device and satisfies the following requirements per Section 3. of KDB 291074 D02.

a) Clients

- 1) Client device (EUT) will not directly connect to another client device.
- 2) Client device (EUT) will only associate and connect with an indoor Access Point (AP) or indoor Subordinate.
- 3) Client device (EUT) will always be under the control of an indoor AP. However, there may exist situations where the client may transmit brief messages, prior to being under the control of an AP, to join an AP network. But these brief messages will only occur if the client has detected a signal confirming that an AP is operating on a particular channel. These brief messages will have a time-out mechanism if the client does not receive a response from an AP.

Thank you for your attention to this matter.

Sincerely,

Yoshinori Nakai
Silex Technology, Inc.
