

# **Granit™ XP 1991i**

---

**Cordless Industrial Area-Imaging Scanner**

## **Quick Start Guide**

## Agency Model: 1991iSR and 1991iMR+

**Note:** Refer to your User Guide for information about cleaning your device.

## Getting Started

Turn off computer's power before connecting the scanner, then power up the computer once the scanner is fully connected. When the base is connected and powered up, put the scanner in the base to establish a link. The green LED on the base flashes to indicate the scanner's battery or charge pack is charging.

## Power Supply Assembly (if included)

**Note:** The power supply must be ordered separately, if needed.

## Connecting the Base

### USB:

**Note:** *If you are charging the scanner using the USB cable, the current available for charging is reduced and charge times are increased. Charging via the power supply is faster.*

## Keyboard Wedge:

## RS232 Serial Port:

## Reading Techniques

The view finder projects an aiming beam that should be centered over the bar code, but it can be positioned in any direction for a good read.

**Note:** *If the scanner beeps 3 times when scanning a bar code, the link has not been established. If the scanner beeps once, the link has been established.*

## Standard Product Defaults

The following bar code resets all standard product default settings.

Standard Product Defaults

## USB Serial

*If you are using a Microsoft® Windows® PC, you must download a driver from the Honeywell website. The driver will use the next available COM Port number.*

Scan the following code to program the scanner to emulate a regular RS232-based COM Port. Apple® Macintosh computers recognize the scanner as a USB CDC class device and automatically use a class driver.

USB Serial

**Note:** No extra configuration (e.g., baud rate) is necessary.

## USB PC Keyboard

Scan the following code to program the scanner for a USB PC Keyboard.

USB PC Keyboard

## Keyboard Country

Scan the appropriate country code below to program the keyboard layout for your country or language. By default, national character replacements are used for the following characters: # \$ % & [ \ ] ^ \_ { | } ~ Refer to the ISO 646 Character Replacements chart in your User Guide to view the character replacements for each country.

USA (Default)

Belgium

Denmark

Finland

France

Germany/Austria

Great Britain

Italy

Norway

Spain

Switzerland

**Note:** *For a complete list of country codes, see the User Guide for your product.*

## Locked Link

If you link a scanner to a base using the Locked Link Mode, other scanners are blocked from being linked if they are inadvertently placed into the base. If you do place a different scanner into the base, it will charge the scanner, but the scanner will not be linked.

Locked Link Mode  
(Single Scanner)

To use a different scanner, you need to unlink the original scanner by scanning the **Unlink Scanner** bar code.

## Override Locked Scanner

If you need to replace a broken or lost scanner that is linked to a base, scan the **Override Locked Scanner** bar code with a new scanner, and place that scanner in the base. The locked link will be overridden; the broken or lost scanner's link with the base will be removed, and the new scanner will be linked.

Override Locked Scanner

## Unlinking the Scanner

If the base has a scanner linked to it, that scanner must be unlinked before a new scanner can be linked. Once the previous scanner is unlinked, it will no longer communicate with the base. Scan the **Unlink Scanner** bar code to unlink a scanner.

Unlink Scanner

## Trigger

The following bar codes will allow you to use the scanner in **Manual Trigger - Normal Mode** (need to press the trigger to read) or **Presentation mode** (the scanner is activated when it “sees” a bar code).

**Note:** *Presentation Mode continuously draws power, so use of the external power supply is recommended for this mode.*

Manual Trigger - Normal  
(Default)

Presentation Mode

## Streaming Presentation™

When in Streaming Presentation mode, the scanner leaves the scan illumination on all the time and continuously searches for bar codes.

Streaming Presentation Mode

## Suffix

If you want a carriage return after the bar code, scan the **Add CR Suffix** bar code. To add a tab after the bar code, scan the **Add Tab Suffix** bar code. Otherwise, scan the **Remove Suffix** bar code to remove the suffixes.

Add CR Suffix

Add Tab Suffix

Remove Suffix

## Add Code ID Prefix to all Symbolologies

Scan the following bar code if you wish to add a Code ID prefix to all symbolologies at once.

Add Code ID Prefix To All Symbolologies  
(Temporary)

*Note: For a complete list of Code IDs, see the User'Guide for your product.*

## Function Code Transmit

When this selection is enabled and function codes are contained within the scanned data, the scanner transmits the function code to the terminal. Charts of these function codes are provided in your User Guide. When the scanner is in keyboard wedge mode, the scan code is converted to a key code before it is transmitted.

Enable  
(Default)

Disable

## EZConfig for Scanning

To access additional features for the scanner, use EZConfig for Scanning, an online configuration software tool, available from our website.

## Support

To search our knowledge base for a solution or to log into the Technical Support portal and report a problem, go to [www.hsmcontactsupport.com](http://www.hsmcontactsupport.com).

## Product Documentation

Product documentation is available at [www.honeywellaidc.com](http://www.honeywellaidc.com).

**FCC Part 15 Subpart B Class B**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio or television technician for help.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. Honeywell International Inc. is not responsible for any radio or television interference caused by unauthorized modifications of this equipment or the substitution or attachment of connecting cables and equipment other than those specified by Honeywell International Inc.. The correction is the responsibility of the user.

|                                                                                                                                                                                  |                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                |                                                                                                                                                                                                                                  |

| Use only shielded data cables with this system. This unit has been tested with cables less than 3 meters. Cables greater than 3 meters may not meet class A performance.                               | Utiliser uniquement des câbles de données blindés avec ce système. L'appareil a été testé avec des câbles de moins de 3 mètres. Les câbles de longueur supérieure à 3 mètres peuvent ne pas satisfaire à la performance de la classe A. | Utilisez uniquement des câbles de données blindés avec ce système. Ce dispositif a été testé avec des câbles de moins de 3 mètres. Il est possible que les câbles de plus de 3 mètres ne permettent pas d'atteindre des performances de classe A. | Utilizzare solo cavi dati schermati con questo sistema. Questa unità è stata testata con cavi di lunghezza inferiore a 3 metri. I cavi di lunghezza superiore a 3 metri potrebbero non essere conformi alle prestazioni di classe A. | Für dieses System nur abgeschirmte Datenkabel verwenden. Dieses System wurde mit Kabeln unter 3 Metern Länge geprüft. Kabel mit einer Länge von über 3 Metern erfüllen möglicherweise nicht die Richtlinien der Klasse A.                    | Utilice sólo cables de datos blindados con este sistema. Esta unidad se ha probado con cables de longitud inferior a 3 metros. Cables superiores a 3 metros quizá no satisfagan los requisitos de rendimiento de la clase A. | Use únicamente cables protegidos con este sistema. Esta unidad ha sido evaluada con cables de menos de 3 metros. Es posible que los cables de más de 3 metros no cumplan con el desempeño de clase A. | Use somente cabos de dados blindados com este sistema. Esta unidade foi testada com cabos com menos de 3 metros. Cabos com mais de 3 metros não atendem o desempenho de classe A. |
| 此系统仅能使用屏蔽数据电缆。此设备足以短于 3 米的电缆进行的测试。长度超过 3 米的电缆可能无法满足 A 级性能。                                                                                                                                             | 此系統只能使用包覆的資料傳輸線。此裝置是使用不到 3 公尺長的電纜進行測試。超過 3 公尺長的電纜可能無法達到 A 級裝置效能。                                                                                                                                                                        | このシステムにはシールド付きデータケーブルのみを使用してください。この装置は長さ 3 m 以下のケーブルでテストされています。3 m 以上のケーブルはクラス A の性能を満たさない場合があります。                                                                                                                                                | 이 시스템에는 차폐된 데이터 케이블만 사용하십시오. 본 장치는 3 미터 미만의 케이블로 테스트를 받았습니다. 30터를 초과하는 케이블을 사용하면 Class A 성능을 만족시키지 못할 수 있습니다.                                                                                                                        | Используйте с этой системой только экранированные кабели передачи данных. Это устройство прошло испытания с использованием кабелей длиной менее 3 метров. Рабочие характеристики кабелей длиной свыше 3 м могут не соответствовать классу A. | استخدم فقط كابلات البيانات المصحف مع هذا النظام. تم اختبار هذه الوحدة بواسطة كابلات يقل طولها عن 3 أمتار. قد لا تتطابق الكابلات التي يزيد طولها عن 3 أمتار مع أداء الفئة A.                                                  | יש להשתמש בכבלים בתוים ממוכנים בלבד עם מערכת זו. מערכת זו נבדקה באמצעות כבלים באורך של פחות מ-3 מטרים. כבלים ארוכים יותר מ-3 מטרים עלולים שלא לעמוד בביצוע דרגה A.                                    |                                                                                                                                                                                   |

|                                                                         |                                                                                                                      |                                                                                                  |                                                                                                   |                                                                                        |                                                                                                          |                                                                                           |                                                                                        |

| This document was prepared and executed in the English language. In the event this document is translated into another language and a conflict arises between the English version and a non-English version, the English version shall prevail, it being recognized and acknowledged that the English language version most clearly expresses the intent of the parties. Any notice or communication given in connection with this document must include a version in the English language. | Ce document a été préparé et exécuté dans la langue anglaise. Dans l'éventualité où le document serait traduit dans une autre langue et qu'un litige survient entre la version en anglais et la version autre qu'en anglais, la version en anglais prévaudra, étant confirmé et reconnu que la version en anglais exprime de façon plus précise l'intention des parties. Tout avis ou toute communication relatif à ce document doit inclure une version en anglais. | Ce document a été préparé et finalisé en anglais. Si ce document est traduit dans une autre langue et si un conflit survient entre la version en anglais et la version traduite, la version en anglais prévaudra tant il est reconnu et établi qu'elle exprime le plus clairement les intentions des parties. Tout avis ou communication produit en relation avec ce document doit comporter une version en anglais. | Questo documento è stato preparato e redatto in lingua inglese. In caso di traduzione in altre lingue, nell'eventualità sorgano conflitti fra la versione non inglese e quella inglese, prevarrà quest'ultima in quanto viene riconosciuto e accettato che la versione in lingua inglese esprime più chiaramente gli accordi fra le parti. Qualsiasi notifica o comunicazione inviata in rapporto a questo documento deve includere una versione in lingua inglese. | Dieses Dokument wurde in englischer Sprache erstellt und ausgefertigt. Wenn dieses Dokument in eine andere Sprache übersetzt wird, und ein Konflikt zwischen der englischen und nicht-englischen Fassung auftritt, hat die englische Fassung Vorrang, da die Parteien anerkennen, dass die Fassung in englischer Sprache ihren Absichten am deutlichsten Ausdruck verleiht. Alle Hinweise oder Mitteilungen in Zusammenhang mit diesem Dokument müssen auch in einer Fassung in englischer Sprache erfolgen. |
