## **Attestation Letter**

FEDERAL COMMUNICATIONS COMMISSIONS

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

The MSM8909 installed in our product WisePOS E+(model name: WisePOS E+, FCC ID: 2AB7X-WISEPOSEPLUS), which support LTE/TD-SCDMA/CDMA/WCDMA/GSM/NFC/FM/GNSS/WIFI/BT. But for this product, it only activates LTE Band 5/7/38/41, GSM850/PCS1900, WCDMA B2/B5, GPS/BDS/SBAS, NFC, BT, 2.4GWIFI (2412-2462MHz)and 5G WIFI Band1(5150-5250MHz)/Band4(5745-5825MHz), the other functions are disabled by using software.

This device has microphone and speaker, but the device does not support GSM voice call function because of the limitation of the firmware.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely,

Signature:
